

Illinois

FISHING

2025 REGULATION INFORMATION
Effective: April 1, 2025 through March 31, 2026

Inside:

- *Current fishing regulations*
- *Family Friendly Fishing Spots*
- *Current state records*
- *What's New for Illinois Fishing*
- *Aquatic nuisance species*
- *Illinois fish and your health*
- *Catchable trout program*
- *Free Fishing Days*

Message from the Director

Thank you for your interest in fishing in Illinois and for taking time to review the **2025 Illinois Fishing Information guide**.

This booklet offers a comprehensive look at Illinois fishing regulations and a lot of information on places to fish. While many fishing regulations apply statewide, this guide includes easy-to-reference details on site-specific regulations organized by the body of water or water area at which those regulations apply.

In keeping with tradition, the annual Illinois Free Fishing Days will take place the third weekend in June. For 2025, those dates are June 13-16. The Illinois Department of Natural Resources invites new anglers, women, families, and youngsters to go fishing that weekend, even if they have not purchased a fishing license.

While the **Illinois Fishing Information guide** is updated annually, some site-specific regulations may be changed in emergency situations during the year through the administrative rule process. In those cases, changes will be posted at the location where the rules apply, and the changes will also be posted online at www.ifishillinois.org.

Those of us who enjoy fishing are the guardians of Illinois' aquatic resources. The money we spend on fishing licenses and equipment helps fund the state's fisheries programs and helps protect the future of fishing in Illinois.

Thank you again for reviewing the **Illinois Fishing Information guide** and for supporting fishing in Illinois.

Natalie Phelps Finnie
Director
Illinois Department of Natural Resources

WHAT'S NEW FOR ILLINOIS FISHING

REGULATION CHANGES

New or revised regulations are **green and bolded** in the Digest. Notable changes for 2025 include:

- Bowfishing regulations were revised to clarify waters defined as public in 17 IAC 3704, other waters open to bowfishing, and waters open to bowfishing for catfish.
- Chenoa City Lake is now listed as Silliman Lake in the site-specific regulations
- New regulation for Heidecke Lake bass
- Tilton City Lake is now listed as Herschel Lake in the site-specific regulations
- New regulations for Ohio River Alligator Gar, Redear Sunfish, Rock Bass, and crappie
- Bowfishing for Carp, Buffalo, and Suckers is now open year-round at Pittsfield Lake
- New regulation for Sangchris Lake crappie
- New regulations for Vermont Lake (new public access)
- Tournament release boats are no longer allowed without special exemption from the Department. Anglers may still transport fish by boat away from the weigh-in site but may not have more than the Daily Harvest Limit for the waterbody in possession.

ACCESS TO FISHING

The Access to Fishing Program page on the IFISHILLINOIS website has been updated. The Access to Fishing Program provides loaner tackle (fishing rods and terminal tackle) through local libraries, municipal offices, park district offices, State parks, and many other locations. It's just like checking out a book at a library. You can find a site near you with the interactive map. Directions to locations can be downloaded to your mobile device.

DID YOU KNOW THAT EURASIAN MILFOIL CAN GROW A NEW PLANT FROM FRAGMENTS?

It's true. Small pieces of the plant transported on a boat or boat trailer can result in transfer of this nuisance plant to another waterbody. That's why boaters should always check their boat and trailer for any aquatic vegetation before getting on the road. Illinois law also requires that anglers drain livewells and other sources of water before leaving a waterbody.

Aquatic invasive species (AIS), both plant and animal, negatively affect the function of aquatic ecosystems by competing with or displacing native species, destabilize nutrient cycling, or can negatively impact user experiences. That's right, AIS also can directly affect you and your enjoyment of Illinois' natural resources. Prevention is the easiest and most effective action since controlling or removing AIS after their intentional or unintentional introduction can be an expensive and long process.

NEW STATE RECORD FISH

Michael Farniok caught an Illinois State Record Fish at Argyle Lake on June 2, 2024. The Saugeye (hybrid of Walleye and Sauger) was 10.85 lbs, 29 1/8 inches in length, and had a girth of 18 1/2 inches. IDNR stocks Saugeye at a number of lakes, including Argyle, in the central and southern part of the state because of the fish's increased tolerance for warmer water temperatures compared to the parental species.

DID YOU KNOW ILLINOIS NOW OFFERS A 3-YEAR SPORTFISHING LICENSE?

Beginning in 2024, you can now purchase a 3-year Sportfishing License or Sportsman's Combination License. Purchasing a multi-year license can save time when it comes to renewal. Any associated stamps however must still be purchased annually.

Illinois Fishing Licenses and the Sport Fish Restoration Program

Thank You for purchasing an Illinois fishing license! Your fishing license and outdoor gear purchases make a real difference in managing our aquatic resources. When you head out to fish, remember that you're also contributing to the well-being of nature.

THE DIVISION OF FISHERIES IS FUNDED THROUGH THE SALE OF FISHING LICENSES AND ASSOCIATED STAMPS AND DOES NOT RECEIVE GENERAL REVENUE (STATE TAX) DOLLARS. License and stamp purchases directly fund vital activities.

- Fishing Licenses fund fish management, research, and outreach
- Salmon Stamps fund Lake Michigan salmon management
- Inland Trout Stamps help fund the inland Catchable Trout Program
- Commercial and Aquaculture Licenses fund commercial fisheries management and aquaculture activities

License Dollars at Work

License dollars are deposited in the Game and Fish Fund by the Illinois Treasurer and monies from stamp sales are held in other special purpose funds mandated by Illinois law.

Did you know that federal law requires that funds be set aside for the conservation and management of fishery resources when you buy tackle or the equipment needed to fish?

The Federal government joins the natural resource management effort through the Sport Fish Restoration Act, sponsored by Rep. John Dingell (MI) and Sen. Edwin Johnson (CO) and enacted in 1950 (often referred to as Dingell-Johnson or "DJ"). The Act mandates a Federal excise tax on purchases of fishing equipment, motorboat fuel, and other outdoor accessories that is held in a special Federal fund for the conservation of fisheries resources.

The Sport Fish Restoration (SFR) Program, administered by the U.S. Fish and Wildlife Service, was created to distribute these funds through grants to State and U.S. Territory natural resource management agencies. Funds are allocated annually based on a formula which includes land area and **number of paid license holders**. No state receives more than 5% or less than 1% of the available funds each year. In 1984, the Wallop-Breaux Amendment to the Act mandated that each state also must spend at least 10% of its apportionment for boat access projects and allowed each state to use up to 10% for aquatic resources education.

By law, the grants require a 25% match by state funds – Illinois uses money from license sales. States also must have Assent Legislation (law that prohibits the diversion of license fees paid by anglers for any other purpose than the administration of said State fish and game department) to be eligible to receive SFR funding. Illinois' Assent Legislation is found in the Illinois Compiled Statutes, (515 ILCS 5/) Fish and Aquatic Life Code, Article 30. Fish Restoration and Management Projects.

While the land area of states doesn't change, the number of licensed anglers has been declining in Illinois over the last 30+ years, reducing our piece of the Federal DJ funding. What can you do? Become a steward of the resource. Take someone fishing and let others know that purchasing a fishing license is much more than paying a fee for the privilege to fish. License and stamp sales enhance the outdoor experience for everyone and ensure that future generations can enjoy our aquatic resources.

WHAT DOES YOUR ILLINOIS FISHING LICENSE PAY FOR?

The Illinois Department of Natural Resources receives Federal financial assistance from the U.S. Fish and Wildlife Service. Under Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments Act of 1972, and the U.S. Department of the Interior prohibits discrimination on the basis of race, color, national origin, age, sex, or disability. If you believe that you have been discriminated against in any program, activity, or facility, or if you need more information, please write to: Chief, Public Civil Rights Office of Civil Rights U.S. Department of the Interior 1849 C Street, NW Washington, D.C. 20240. This information may be provided in an alternative format if required. Contact the DNR Clearinghouse at 217/782 7498 for assistance.

SPORT FISHING LICENSE

Anglers should have their Illinois Sport Fishing license in possession at all times while fishing. License sales for the year begin on March 1. Annual licenses expire on March 31 each year (i.e., a license purchased on or after March 1, 2025 will expire on March 31, 2026). 3-year licenses expire on March 31 of the 2nd year after the year in which the license was issued.

ILLINOIS RESIDENTS:

A resident Sport Fishing license may be obtained by anyone who has been a resident of Illinois 30 days prior to purchase. Residents under 16 years of age, and resident persons declared legally disabled or blind, may fish without a license.

Owners or tenants (if they reside on the land) may fish in waters wholly contained on their property or waters flowing over their lands, within the confines of the property, without a license. This exemption does not apply to club and organizational lakes or lake developments.

Persons on active duty in the Armed Forces are considered residents. A person on active duty in the Armed Forces, who entered the service from Illinois and is an Illinois resident, may fish without a license while on leave.

** Half-priced licenses available for qualifying resident veterans.*

NON-RESIDENTS:

Non-Residents of Illinois may purchase sport fishing licenses to fish waters of the state. Non-residents under 16 years of age may fish without a license. All other Non-Resident anglers must purchase Sport Fishing licenses before fishing in Illinois (except on boundary rivers, if licensed in the bordering state). Non-residents in possession of a Sport Fishing license from a state bordering Illinois are not required to have an Illinois Sport Fishing license to fish on the Illinois side of rivers adjoining the state in which they are licensed (see BOUNDARY RIVERS section).

Resident or non-resident anglers who fish at fee fishing areas licensed by the Illinois Department of Natural Resources are not required to have a license or Inland Trout Stamp.

CURRENT FEES (Fees subject to change; additional transaction fee may apply) (INCLUDES AGENT'S FEES):

Resident	
Annual Sport Fishing	\$15.00*
65 to 74 years old	\$7.75
75 years old and over	\$1.50
3-year Sport Fishing	\$44.00*
65 to 74 years old	\$22.25
75 years old and over	\$4.50
Sport fishing (24-hour license).....	\$5.50
First-Time Sport Fishing License	\$5.50**
Lifetime Sport Fishing	\$435.00
Annual Sportsmen's Combination Hunting/ Fishing License	\$26.50*
3-year Sportsmen's Combination Hunting/ Fishing License	\$77.25*
Annual Senior Sportsmen's Combination Hunting/ Fishing License (65 years old and over)	\$13.50
3-year Senior Sportsmen's Combination Hunting/ Fishing License (65 years old and over)	\$39.00
Lifetime Sportsmen's Combination Hunting/ Fishing License	\$765.

Non-Resident

Annual Non-Resident Sport Fishing	\$31.50
3-day Non-Resident Sport Fishing	\$15.50
Sport Fishing (24-hour license)	\$10.50

Trout and Salmon Stamps ***

Licensed Resident and Non-Resident anglers must have a Salmon Stamp to take salmon or trout in Lake Michigan and Inland Trout Stamp to take trout in Illinois waters other than Lake Michigan.	
Lake Michigan Salmon Stamp (annual) Licensed anglers only	\$6.50
Licensed Resident; 75 years old and over	\$0.50
Inland Trout Stamp (annual) Licensed anglers only	\$6.50
Licensed Resident; 75 years old and over	\$0.50

** Half-priced licenses available for qualifying resident veterans.*

*** Must be at least 26 years old and not have had a Resident Sport Fishing license in the past 10 years.*

**** Anglers not required to obtain a Sport Fishing License (i.e., resident and non-resident anglers under 16, and qualifying disabled or blind persons) are not required to obtain a Trout or Salmon Stamp.*

LOST, STOLEN, DESTROYED LICENSE REPLACEMENT:

- Licenses purchased via the Internet can be reprinted at no charge by visiting <https://www.exploremoreil.com/>. Vendor transactions for replacement will incur a fee.
- Replacement licenses, permits and stamps are available for \$3 from the Chicago office and the Springfield Public Service area.
- Vendors can issue replacement licenses with a DNR Direct terminal. There is a \$3 replacement fee per item plus a small transaction fee.

DISABLED OR BLIND PERSONS:

In order for disabled or blind persons who are Illinois residents to fish without a license, the person must be able to show proof of disability in the form of one of the following:

- A State disabled person I.D. card** (available from the Secretary of State through the driver's license examining station) showing a Class 2 or Class 2A disability. Applies to Illinois residents only.
- Veterans disability card** - (available from the Illinois Department of Veterans' Affairs Office) Resident and Non-Resident veterans who are at least 10% disabled with service-related disabilities or in receipt of total disability pensions may fish with sport fishing devices during any open season without being required to have a license, on the condition that their respective disabilities do not prevent them from fishing in a manner which is safe to themselves and others.

TO PURCHASE AN ILLINOIS SPORT FISHING LICENSE:

Fishing and Combination Hunting/Fishing licenses and stamps can be purchased over the Internet or you can find a local vendor by visiting the Department's Licensing Page at:

<https://dnr.illinois.gov/lpr.html>

Boat renewals may also be done at this site.

WATERCRAFT REGISTRATION AND SAFETY

WATERCRAFT REGISTRATION

All watercraft operated on the waters within the jurisdiction of this State shall be registered and titled except for unpowered vessels, including canoes, kayaks and paddleboards. Illinois Boat Registration and Safety Act Information can be found at: <https://dnr.illinois.gov/content/dam/soi/en/web/dnr/boating/documents/boatdigest.pdf>

HOW TO REGISTER OR RENEW YOUR BOAT

Boat registration (new registration and renewal) must be completed through the ExploreMoreIL system at <https://www.exploremoreil.com/>. To learn more about boat registration requirements, please visit <https://dnr.illinois.gov/boating/howtoregister.html>.

If you have any questions regarding registration and titling please call 217-557-0180 or 1-800-382-1696.

BOATING SAFETY EDUCATION

Boat safety education is a positive move toward a safe and enjoyable boating future. Completing a boat safety course also may lower your insurance cost. It is unlawful for a **person born on or after January 1, 1998** to operate a motorboat with over 10 horse power unless that person has a valid Boating Safety Certificate issued by the Department of Natural Resources or an entity or organization recognized and approved by the Department. To enroll in an online Boat Safety Course or for information on in-person class locations call: 1-800-832-2599, or visit: <https://dnr.illinois.gov/boating/moreinformation.html>

RIVER CLOSURES

Illinois Department of Natural Resources routinely monitors river conditions throughout the state to ensure that river conditions are safe for recreational and commercial boat traffic. For information on river closures in Illinois please visit the following websites:

Illinois Department of Natural Resources:
<https://dnr.illinois.gov/closures/riverclosures.html>

United States Coast Guard:
<https://www.uscg.mil/home/>

SUMMARY OF FISHING REGULATIONS

ADMINISTRATIVE RULES

The fisheries of Illinois are administered to assure conservation and enhancement of the fishery resource and equity to the fishing public, while providing for maximum enjoyment. Statutes provide the framework by which fishing opportunities are administered. These opportunities, however, are sometimes subject to a variety of regulations, depending on local site conditions and situations unique to a particular fishery or waterbody. These detailed regulations are set forth in administrative rules. Such administrative rules are enforced in the same manner as are provisions of the statutes, and are subject to the same penalties. This digest is not a legal notice or a complete collection of fishing regulations and laws. It is a condensed guide issued for anglers' convenience. See TITLE 17: CONSERVATION for more details: <http://www.ilga.gov/commission/jcar/admincode/017/017parts.html>.

AGGREGATE (re: "singly or in the aggregate")

Aggregate means a combination of all species listed. A Daily Harvest Limit is the maximum number of fish that may be in possession and the number of fish is the sum of fish of each species listed for the regulation, whether the phrase "singly or in the aggregate" appears or not. For example, *Bluegill* or *Redear Sunfish* – 25 Fish Daily Harvest Limit means an angler may harvest 25 Bluegill or 25 Redear Sunfish, or 25 fish of the two species combined (e.g., 15 Bluegill and 10 Redear Sunfish).

AQUATIC LIFE

Aquatic life is statutorily defined as all fish, mollusks, crustaceans, algae, aquatic plants, aquatic invertebrates, and any other aquatic animals or plants that the Department identifies in Administrative Rules.

AQUATIC LIFE APPROVED SPECIES LIST

The Aquatic Life Approved Species List is created and maintained by the Department and is comprised of specific species of aquatic life, within the categories of fish, crustaceans, gastropods, mollusks, and plants. The listed aquatic life species are considered approved for aquaculture, transportation, stocking, importation and/or possession in the State of Illinois. The Aquatic Life Approved Species List can be found at: <https://www.ifishillinois.org>.

BAIT FISHING

The following fish species may be taken by anglers with a valid sportfishing license with a legal size cast net or shad scoop and used for LIVE or DEAD bait on the body of water where they are collected: Mooneye *Hiodon tergisus*, Goldeye *Hiodon alosoides*, Skipjack Herring *Alosa chrysochloris*, and Common Carp *Cyprinus carpio*.

The following fish species may be taken by anglers with a valid sportfishing license with a cast net or shad scoop and used for DEAD bait on the body of water where they are collected: Bighead Carp *Hypophthalmichthys nobilis*, Black Carp *Mylopharyngodon piceus*, Grass Carp *Ctenopharyngodon idella*, and Silver Carp *Hypophthalmichthys molitrix*.

All cast nets shall be not larger than 24 feet in diameter or of a mesh size not larger than 1 inch bar measurement. All shad scoops shall not be larger than 30 inches in diameter or of a mesh size not larger than 1/2 inch bar measurement or longer than 4 feet in length.

Minnows (any fish in the family *Cyprinidae* except Bighead Carp *Hypophthalmichthys nobilis*, Black Carp *Mylopharyngodon piceus*, Grass Carp *Ctenopharyngodon idella*, and Silver Carp *Hypophthalmichthys molitrix*) and crayfish may be taken by anglers with a valid sportfishing license and used as LIVE or DEAD bait on the body of water where they are collected using traps of metal screen or hardware cloth, plastic, or nylon mesh or netting or minnow seines. Such traps may not be more than 24 inches in width or diameter or more than 36 inches in length nor use a mesh of more than 1/2 inch bar measurement. Each entrance aperture may not exceed 1.5 inches in diameter. If unattended, such devices must be tagged with the name and mailing address of the person operating the device. Minnow seines shall not be longer than 20 feet, deeper than 6 feet or contain mesh size larger than 1/2 inch bar measurement. Minnows and crayfish collected in such devices may only be taken for personal use and may not be sold or bartered.

Aquatic life protected under 17 Ill. Adm. Code 1010 - Illinois List of Endangered and Threatened Fauna may not be taken for any purpose including bait fishing.

The use of LIVE injurious species (as described in 17 Ill. Adm. Code, Part 805) as bait is prohibited. Possession of live specimens, progeny thereof, viable eggs, or gametes is prohibited.

Collected LIVE bait fish must be used on the waterbody where taken. Bait fish collected in the tailwaters of a waterbody (i.e., below a dam or spillway) may not be used as LIVE or DEAD bait in the upstream waterbody. The taking of aquatic life with a dip net, casting net, or shad scoop shall not be permitted within 100 feet of the base of any dam.

BOWFISHING (ARCHERY/SPEAR METHODS)

a) Legal Methods of Taking

Aquatic life listed in subsection (b) may be taken by means of a pitchfork, underwater spear gun, bow and arrow or bow and arrow device, spear or gig. A valid sport fishing license is required for taking aquatic life under this rule. Aquatic life taken by these means shall not be sold or bartered. No other aquatic life (e.g. fish, amphibian, or reptile species) may be taken in this State by these means. It is unlawful for any person to take or attempt to take aquatic life as provided in subsection (b) along, upon, across, or from any public right-of-way or highway in this State. [ILCS 5/10-110 (b)]

b) Species

Only species listed may be taken by bowfishing and other legal methods and in accordance with length limits and daily harvest limits identified for each. Fish, amphibian, and reptile species permitted to be taken by bowfishing and other archery/spear fishing legal methods in Illinois waters include:

Native fish

Alligator Gar - *Atractosteus spatula*
Bigmouth Buffalo – *Ictiobus cyprinellus*
Black Buffalo – *Ictiobus niger*
Black Bullhead – *Ameiurus melas*
Black Redhorse – *Moxostoma duquesnei*
Blue Catfish – *Ictalurus furcatus*
Blue Sucker – *Cycleptus elongatus*
Bowfin – *Amia calva*
Brown Bullhead – *Ameiurus nebulosus*
Channel Catfish – *Ictalurus punctatus*
Flathead Catfish – *Pylodictis olivaris*
Freshwater Drum – *Aplodinotus grunniens*
Gizzard Shad – *Dorosoma cepedianum*
Golden Redhorse – *Moxostoma erythrurum*
Highfin Carpsucker – *Cariodes velifer*
Longnose Gar – *Lepisosteus osseus*
Quillback Carpsucker – *Cariodes cyprinus*
River Carpsucker – *Cariodes carpio*
Shorthead Redhorse – *Moxostoma macrolepidotum*
Shortnose Gar – *Lepisosteus platostomus*
Silver Redhorse – *Moxostoma anisurum*
Smallmouth Buffalo – *Ictiobus bubalus*
Spotted Gar – *Lepisosteus oculatus*
Spotted Sucker – *Minytrema melanops*
White Sucker – *Catostomus commersoni*
Yellow Bullhead – *Ameiurus natalis*

Non-Native fish

Bighead carp – *Hypophthalmichthys nobilis*
Black carp – *Mylopharyngodon piceus*
Common carp – *Cyprinus carpio*
Goldfish – *Carassius auratus*
Grass carp – *Ctenopharyngodon idella*
Northern snakehead – *Channa argus*
Oriental weatherfish – *Misgurnus anguillicaudatus*
Pacu – *Callisoma* spp.
Round goby – *Neogobius malanistomus*
Sea Lamprey – *Petromyzon marinus*
Silver carp – *Hypophthalmichthys molitrix*
Tilapia – *Tilapia* spp.
White catfish – *Ameiurus catus*

Native Reptiles and Amphibians

American Bullfrog – *Lithobates catesbeianus*
Common Snapping Turtle – *Chelydra serpentina*
c) No live possession of Non-Native Fish species listed in subsection (b) is permitted, with the exception of Common Carp and Goldfish.
d) Waters Open to Bowfishing and Other Legal Archery and Spearfishing Methods
1) All public site specific waters as noted in Section 810.45.
2) All public rivers and streams noted in 17 Ill. Adm. Code 3704. Appendix A, except as restricted by subsections (d)(2)(A) through (G).
A) Mississippi River connected public (accessible by boat during normal flows or stages) backwaters, including that portion of the Kaskaskia River below the navigation lock and dam, except:
i) Quincy Bay, including Quincy Bay Waterfowl Management Area.
ii) All U.S. Fish and Wildlife Service National Wildlife Refuge backwaters
B) Illinois River and connected public (acces-

- sible by boat during normal flows or stages) backwaters from Route 89 highway bridge downstream, except for:
- i) U.S. Fish and Wildlife Service National Wildlife Refuge waters.
 - ii) Donnelley/DePue State Fish and Wildlife Area
 - iii) Rice Lake Complex, including all of Big Lake.
 - iv) Meredosia Lake in Cass and Morgan Counties during the central zone duck season.
 - v) Clear Lake in Mason County 7 days prior to and during the central zone duck season.
- C) Sangamon River, downstream of State Route 48 southwest of Decatur to mouth in Cass County.
- D) Kaskaskia River south of Route U.S. 50 Bridge to mouth in Randolph County.
- E) Big Muddy River, south of State Route 14 highway bridge in Franklin County to mouth in Jackson County.
- F) Saline River in Gallatin and Saline Counties.
- G) Ohio River, except for:
- i) Olmstead Locks and Dam downstream to a line perpendicular with the end of the longest lock wall, including the circular cell portion.
 - ii) Smithland Dam downstream to a line perpendicular to the end of the outer lock wall.
 - iii) Within 50 yards of the mouth of any tributary or stream.
- 3) Additional waters (accessible by boat during normal flows or stages), except as restricted in subsections (d)(3)(A) through (C).
- A) Embarras River, except from Route 130 in Coles County upstream to the dam.
 - B) Skillet Fork River.
 - C) Cache River from Route 51 downstream to the Mississippi River via Cache Diversion Channel, but not including that portion of the Cache River between the Cache Diversion Channel Levee and the Ohio River.
- e) Catfish species (Family Ictaluridae) may be taken by bowfishing methods only in the following waters, except as restricted in subsection (e)(1) through (12).
- 1) Mississippi River connected public (accessible by boat during normal flows or stages) backwaters, including that portion of the Kaskaskia River below the navigation lock and dam, except:
 - A) Quincy Bay, including Quincy Bay Waterfowl Management Area.
 - B) All U.S. Fish and Wildlife National Wildlife Refuge backwaters.
 - 2) Illinois River and connected public (accessible by boat during normal flows or stages) backwaters from Route 89 highway bridge downstream, except:
 - A) U.S. Fish and Wildlife Service National Wildlife Refuge waters.
 - B) Donnelley/DePue State Fish and Wildlife Area.
 - C) Rice Lake Complex, including all of Big Lake.
 - D) Meredosia Lake in Cass and Morgan Counties during the central zone duck season.
 - E) Clear Lake in Mason County seven days prior to and during the central zone duck season.
 - 3) Sangamon River, downstream of State Route 48 southwest of Decatur to mouth in Cass County.
 - 4) Kaskaskia River, south of Route U.S. 50 Bridge to mouth in Randolph County.
 - 5) Big Muddy River, south of State Route 14 highway bridge in Franklin County to mouth in Jackson County.
 - 6) Saline River in Gallatin and Saline Counties.
 - 7) Ohio River, except:
 - A) Olmstead Locks and Dam downstream to a line perpendicular with the end of the longest lock wall, including the circular cell portion.
 - B) Smithland Dam downstream to a line perpendicular to the end of the outer lock wall.
 - C) Within 50 yards of the mouth of any tributary or stream.
 - 8) Embarras River, except from Route 130 in Coles County upstream to the dam, and except Charleston Side Channel Lake.
 - 9) Skillet Fork River.

- 10) Cache River from Route 51 downstream to the Mississippi River via Cache Diversion Channel, but not including that portion of the Cache River between the Cache Diversion Channel Levee and the Ohio River.
- 11) Wabash River.
- 12) Little Wabash River.
- 13) South Fork of the Sangamon River from State Highway 48 bridge downstream to the Sangamon River in Christian and Sangamon Counties.

CATCH AND RELEASE FISHING

Waterbodies may be listed as Catch and Release Fishing Only for all species, individual fish species, or may have special Catch and Release Only seasons. Catch and Release Fishing Only means no harvest of fish listed as catch and release is permitted. Caught fish must be immediately returned to the same water unharmed.

CLEANING FISH ON THE WATER

No fish entrails or carcass may be disposed of into the waters of Illinois after cleaning. No fish species may be dressed (filleted or head and tail removed) on any waters for which length and harvest limits are applicable.

CLOSED SEASON

A closed season means that fish may not be taken between the specified dates. Waters receiving catchable rainbow trout have closed seasons (spring and/or fall). A closed season prohibiting harvest of rainbow trout is necessary in order for the State to have the trout stocked and permit all anglers to have an equal opportunity to harvest fish on the "opening day" of the season.

COMMERCIAL FISH

The minimum size limit on Channel Catfish, Flathead Catfish, Blue Catfish and White Catfish taken by commercial fishermen is 15 inches, except in the Wabash and Ohio Rivers. No Channel Catfish, Blue Catfish or Flathead Catfish less than 13 inches in total length may be taken from the Wabash and Ohio Rivers. Only one Channel Catfish per day equal to or greater than 28 inches may be harvested from the Wabash and Ohio Rivers. Only one Blue Catfish and one Flathead Catfish per day equal to or greater than 35 inches may be harvested from the Wabash or Ohio Rivers. No Paddlefish less than 28 inches in length may be taken by commercial fisherman from the Illinois or Mississippi Rivers. No Paddlefish less than 32 inches may be taken by commercial fishermen from the Ohio River. No Shovelnose sturgeon under 24 inches or over 32 inches in length may be taken by commercial fishermen from the Mississippi River or the Ohio River. No Shovelnose Sturgeon under 25 inches in length may be taken by commercial fishermen from the Wabash River. There is no size limit on Carp, Drum, Bullhead, Buffalo, Sucker, Shortnose Gar, Longnose Gar, Spotted Gar, Bowfin, Yellow Perch, Chub, Mooneye, Goldeye, Carpsucker and Smelt. All other species may not be taken commercially, but if caught incidentally must be returned immediately to waters where taken. Additional information can be found at <https://www.ifishillinois.org>

COMMERCIAL LICENSES

A commercial fishing license and sportfishing license is required for any person who uses a commercial device to harvest fish (including minnows) or crayfish. Any person assisting a licensed commercial fisherman in taking fish (including minnows) or crayfish must have a sportfishing license. A resident commercial fishing license can be issued only to persons who have resided in Illinois for at least a year. The commercial fishing license expires March 31 annually. In addition, the holder of this license must obtain a license for each commercial device fished. All commercial fishermen shall procure a commercial roe harvest permit in addition to their commercial fishing and sportfishing license before taking roe-bearing species (Bowfin, Paddlefish, and Shovelnose Sturgeon).

A commercial musseling license is required for any person who commercially harvests mussels. Any person assisting a licensed commercial mussel selector in taking mussels must have a commercial musseling license. Commercial licenses and information are available at the Department of Natural

Resources, Commercial Permits Office, One Natural Resources Way, Springfield, IL 62702. 217-785-3423 and <https://www.ifishillinois.org>

CRAYFISH

It is a violation of state law to import, possess, sell or use as bait LIVE Rusty Crayfish. The Rusty Crayfish may be distinguished by a dark rusty spot on both sides of the carapace (body) and a rusty-red band followed by a dark stripe on the large pincers (claws). Rusty Crayfish destroy aquatic vegetation and eat the eggs of various fishes, which negatively affects fish reproduction. DEAD Rusty Crayfish may be used as bait.

Endangered or threatened species may NOT be taken for use as bait, LIVE or DEAD.

The following crayfish species are listed on the Illinois Aquatic Life Approved Species List and shall be allowed for use as LIVE bait in Illinois: White River Crayfish *Procambarus acutus*, Papershell Crayfish *Faxonius immunitis*, Northern Crayfish *Faxonius virilis*, and Devil Crayfish *Lacunacambarus spp.* These approved crayfish may be captured using legal angling methods in Illinois including legal traps and cast nets, shad scoops, and minnow seines with a sportfishing license.

Those wild caught approved species (above) can be collected by any approved method but **may only be used as bait on the waters where collected.** Crayfish taken with a sportfishing license may only be taken for personal use, and may not be sold or bartered. DEAD crayfish of any species, excluding endangered or threatened species, may be used as bait.

Crayfish traps: traps of metal screen or hardware cloth, plastic, or nylon mesh or netting may be used to capture approved crayfish. Such traps may not be more than 24 inches in width or diameter or more than 36 inches in length nor use a mesh of more than 1/2 inch bar measurement. Each entrance aperture may not exceed 1 1/2 inches in diameter. If unattended, such devices must be tagged with the name, mailing address and phone number of the person operating the device. Crayfish collected in such devices may only be used on the waters where collected, may only be taken for personal use, and may not be sold or bartered.

Only persons possessing a valid commercial fishing license may harvest and sell crayfish from designated waters. Additional information can be found at <https://www.ifishillinois.org>

CULLING

It is illegal to replace a smaller fish held in possession with a larger fish unless: the smaller fish is counted toward the daily limit or released within the confines of a bona fide catch, hold for weigh-in, and release fishing tournament which requires the participants to have a boat live well with a pump constantly adding fresh or recirculating water.

DAILY HARVEST AND LENGTH LIMITS (STATEWIDE)

Statewide daily harvest and length limits are found on p. 11 of the Fishing Digest. These harvest and length limits apply to all Water of the State. Anglers should check daily harvest and length limits listed in Site-specific Regulations (beginning on p. 12) which may be more restrictive.

Length is measured from the tip of the snout to the end of the tail with the fish laid flat on a ruler, with the mouth of the fish closed and the tail lobes pressed together. No fish species may be dressed (filleted or head and tail removed) on any waters to which length and harvest limits are applicable. Regardless of where taken, no fish less than the specified minimum length or more than the daily harvest shall be possessed while taking from, or on the waters to which length limits and/or daily harvest limits apply.

If a daily harvest limit covers more than one fish species (e.g., White, Black, or Hybrid Crappie), the number of fish permitted to be taken includes all fish species covered by the regulation added together (in the aggregate).

DAILY FEE FISHING AREA

A sport fishing license and "Inland Trout Stamp" are not required to fish in a Department of Natural Resources licensed daily fee fishing area. Daily Fee Fishing Areas by administrative rule are defined as any privately owned water area that is controlled, operated or managed for fishing and

utilized by persons who pay a daily fee, either directly or indirectly; water bodies that are controlled, operated or managed as private club lakes, organizational lakes or lake developments are not eligible to receive a daily fee fishing area license.

DIP NETS

A sport fishing license allows the holder to harvest Smelt in Lake Michigan with a dip net not exceeding 12 feet in diameter and having a mesh size not less than 1 inch diagonal stretch. In other waters Common Carp, Carpsucker, Buffalo and Gizzard Shad may be taken with a dip net up to 15 feet in diameter and with a mesh size no less than 1 1/2 inches bar measure. Such equipment may not be used within 100 feet of a dam or to harvest game fish.

DISABLED OUTDOOR OPPORTUNITIES

The Illinois Department of Natural Resources is committed to providing greater access and more programs for persons with disabilities. We want to make it easier for disabled individuals to hunt, fish, and pursue other outdoor activities. DNR's intention is to expand these opportunities so more individuals may take part. For more information, contact IDNR at 618-435-8138 ext. 130.

DRESSED FISH

No dressed (filleted or head and tail removed) fish may be possessed on any waters to which length or harvest limits are applicable.

ENDANGERED AND THREATENED AQUATIC LIFE

There are more than 80 species of aquatic life in Illinois currently on the State Endangered and Threatened (E&T) Species List which may not be taken for any purpose. For more information or to obtain a listing of these species of aquatic life, please go to <https://naturalheritage.illinois.gov/speciesconservation/endangered-and-threatened-species-program.html> and click on the link **List of Endangered and Threatened Species in Illinois**.

Species on the E&T list most likely taken by sport fishing methods include the River Redhorse, Greater Redhorse, Lake Sturgeon, and Mudpuppy. Accidental catches of E&T Species should be released immediately.

FISHING

Fishing shall be defined as taking or attempting to take aquatic life in any waters of the State, by any method, and all other acts such as placing, setting, drawing or using any device commonly used for the taking of aquatic life, whether resulting in taking or not. This also applies to the removal of dead and decaying aquatic life.

FISH ATTRACTORS

Sport fishermen may wish to add habitat or 'fish attractors' to their favorite fishing location, however fish attractors can only be put in public lakes with permission from your IDNR District Fish Biologist. Fish attractors may be put in private ponds and lakes.

FISH DISPOSAL / WANTON WASTE – AQUATIC LIFE ABANDONMENT

Except as provided in 17 Ill. Adm. Code, Section 810.14, it is unlawful for any person at any time to take or possess any fish, mollusks and crustaceans in Illinois waters by sportfishing methods and then intentionally leave or abandon such aquatic life or portions thereof resulting in wanton or needless waste.

"Wanton or needless waste" means to place, leave, dump or abandon any aquatic life or aquatic life parts protected by 17 Ill. Adm. Code, Section 810 along or upon any public right-of-way or highway, waterway or stream, or on any public or private property without the permission of the owner or tenant. No disposal of aquatic life or aquatic life portions shall be allowed on State owned or leased properties except at designated fish cleaning stations, where available.

Section 810.14 does not exclude fish or fish parts used for the purposes of bait or other lawful purposes or apply to injurious species of fish that accidentally jump into a watercraft and are immediately returned to the water.

FISH PRESERVES

All waters under state jurisdiction are statutorily fish preserves, open only to sport fishing. However, certain waters are open to commercial fishing by administrative rule. Contact the Department of Natural Resources for more information.

FISHING GUIDES

Fishing guides are required to possess a passenger for hire license. More information can be found by visiting the IDNR website at: <https://dnr.illinois.gov/boating/passengerrentalboatlicense.html>

FREE FISHING DAYS

On June 13, 14, 15, and 16, 2025, it shall be legal for any person to fish in waters wholly or in part within the jurisdiction of the State, including the Illinois portion of Lake Michigan, without possessing a sport fishing license, salmon stamp or inland trout stamp

GROUP FISHING PERMITS

The Illinois Department of Natural Resources may issue at no cost group fishing permits for hospital patients, nursing home residents, or handicapped people in connection with supervised fishing for therapy. The IDNR reserves the right to determine if the group falls within the definitions listed above.

For more information or an application form, contact the Illinois Department of Natural Resources.

HARVEST

Any aquatic life taken into possession from any waters of the State by any method. Harvested fish from more than one angler may be kept on the same stringer or in the same basket or livewell, assuming all daily harvest and length limits are followed.

HARVESTING FISH ON PRIVATE PROPERTY

Statewide daily harvest and length limits do not apply to a person fishing in waters wholly within their private property.

ICE FISHING

A sport fishing license is required for ice fishing. The ice angler may use a maximum of three poles or tip-ups with no more than two hooks on each line. Anglers at sites with a Two Pole and Line Fishing Only restriction may use a maximum of two poles or tip-ups. Holes cut in the ice are limited to 12-inch diameter or less. Shelter structures are limited to portable construction of metal or wood framework, covered with canvas, paper, plastic material or similar fabric. Each shelter shall have the name and address of the owner attached, and after March 1 the shelter must be removed when not in use, and not left unattended at any time. All poles and tip-ups shall be constantly attended and kept under observation by the angler.

ILLEGAL DEVICES

Use of the following devices in the taking of aquatic life is prohibited: electricity or electrical devices, except lights; lime; acid; medical, chemical or mechanical compounds; dope; drugs; fishberry; dynamite; nitroglycerine or other explosive; snare; treated grain; firearms of any kind; air gun; gas gun; blow gun; wire basket; wire seine; wire net; wire trotline or limb lines of any kind.

INJURIOUS SPECIES

To prevent the introduction and spread of aquatic nuisance species, Illinois has implemented an Injurious Species regulation (17 Ill. Adm. Code, Part 805). Of special note to sport fishermen, this rule **prohibits the possession of LIVE species** deemed to be harmful to our lakes and rivers, and to the fish and wildlife that inhabit them. These harmful species include, but are not limited to:

Bighead Carp	Black Carp	Eurasian Ruffe
Rudd	Round Goby	Rusty Crayfish
Silver Carp	Snakehead	Tubenose Goby
Walking Catfish	Zebra Mussel	Brazilian Elodea
Hydrilla	Eurasian Watermilfoil	Quagga Mussel

The injurious aquatic life species listed above may be immediately returned unharmed. For example, a Round Goby caught on pole and line can be immediately returned to the waters where taken. A Silver Carp that jumps into a boat can be immediately returned to the waters where taken.

To view the complete list of regulated species and full text of Part 805, please visit <https://www.ilga.gov/commission/jcar/admin-code/017/01700805sections.html>.

For more information on aquatic nuisance species, contact the IDNR Aquatic Nuisance Species Program by phone at 217-785-8772 or by email at dnr.ans@illinois.gov.

MEASURING FISH

Fish length is measured from the tip of the snout to the end of the tail while the fish is laid flat on a ruler, with the mouth of the fish closed and the tail lobes pressed together, except for Paddlefish and Sturgeon. Paddlefish length is measured from the eye to the fork of the tail. Sturgeon length is measured from the tip of the snout to the fork of the tail.

MINIMUM LENGTH LIMIT

Regardless of where taken, no fish less than the specified minimum length limit shall be possessed while taking from, or on, any waters to which length limits apply.

MINNOWS

A minnow is statutorily defined as any fish in the minnow family (Cyprinidae) except Carp and Goldfish.

Persons possessing a valid sport fishing license may harvest minnows with cast nets (not larger than 24 feet in diameter and having a mesh size not larger than 1 inch bar measurement), shad scoops (not larger than 30 inches in diameter or longer than 4 feet in length and having a bar mesh size not larger than 1/2 inch), a minnow seine (no longer than 20 feet in length, deeper than 6 feet or having a mesh size larger than 1/2 inch bar measurement), or a trap not more than 36 inches in length, 24 inches in width, and with mesh no larger than 1/2 inch bar measurement.

Collected minnows must be used on the water body where taken whether LIVE or DEAD. Minnows collected in the tailwaters of a waterbody (i.e., below a dam or spillway) may not be used as LIVE or DEAD bait in the upstream waterbody.

MUSSELS

Only persons possessing a valid commercial mussel license may harvest and sell mussels from designated waters. Additional information can be found at <https://www.ifshillinois.org>

Persons possessing a sportfishing license may possess up to 50 relic mussel shells for personal collection. A relic mussel shell is defined as one which died of natural causes within the water and contains no meat or soft parts; it readily exhibits noticeable sediment, vegetation, algal or mineral stains, discolorations, soiling, weathering or other visual evidence on its interior surface which clearly and unambiguously shows the mussel shell has not been cooked-out or freshly cleaned.

POLLUTION

The Department of Natural Resources cooperates with the Environmental Protection Agency in conducting pollution investigations. Anglers are often the first to observe water pollution and their assistance is invited in reporting these instances to District and Regional Fisheries Biologists (see inside cover for contact information), to a Conservation Police Officer, or to the Division of Fisheries in Springfield.

It is unlawful for waste or sewage to be discharged into waters so as to kill aquatic life. It is also unlawful to abandon or deposit wire, cans, bottles, glass, paper, trash, rubbish, cardboard, wood cartons, boxes, trees, brush or other insoluble materials into the water or on the ice, or at any place on the bank where such debris is liable to be washed into the water. Strict penalties are provided for violation of the Fish and Aquatic Life Code.

PROPERTY

Consideration for others is a philosophy of the sportsman. Consent of the landowner or occupant of the premises shall be obtained before fishing or attempting to harvest aquatic life on another's property or within waters other than public waters of the state. Care should be taken not to cause damage to the property.

PROTECTED SLOT LENGTH LIMIT

Fish within a designated length range must be released immediately.

PUBLIC WATERS

Public Waters are defined in 17 Ill. Adm. Code, Section 3704 as all lakes, rivers, streams and waterways which are or were navigable and are open or dedicated to public use including all bays, sloughs, backwaters and submerged lands connected by water to the main channel or body of water during normal flows or stages. A listing of Public Waters can be found in 17 Ill. Adm. Code, Section 3704, Appendix A or at <https://dnr.illinois.gov/waterresources/publicwaters.html>

PURPLE PAINT LAW

The State of Illinois has implemented the Purple Paint Law providing landowners or lessees the option to use purple paint in conjunction with no trespassing signs to mark property boundaries.

SALE OF AQUATIC LIFE

No fish, amphibians, reptiles, crayfish, or parts thereof (including eggs or resulting offspring) taken by sport fishing license methods (including snagging) may be bought, sold or bartered.

SEASONS

Sport fishing is open year-round, except as noted in the Site-Specific Regulations section. Smelt, turtles and frogs, and snagging also have seasons (see relevant sections).

SMELT

A sport fishing license entitles the angler to harvest Smelt. Waters of Lake Michigan comprise Illinois' Smelt fishery. The sport fishing season for Smelt is from March 1 through April 30 (check local seasonal regulations for Smelt fishing on Chicago Park District properties). Smelt may be taken with a seine or gill net not more than 12 feet long, 6 feet deep and with mesh size not more than 1 inch diagonal stretch, or by dip net not more than 12 feet in diameter with mesh size not less than 1 inch diagonal stretch. Trolley or power lines also may be used to take Smelt (see Trot and Trolley Line section). No person shall operate more than one smelt net device at any one time. All fish taken other than Smelt must be released immediately.

SNAGGING

- a) Sport fishermen are permitted only one pole and line device to which can be attached no more than two hooks. On the Mississippi River between Illinois and Iowa, the maximum treble hook size is 5/0; gaffs may not be used to land Paddlefish.
- b) Species of Fish and Snagging Harvest Limit.
 - 1) Only the following species of fish and harvest limit may be taken by snagging:
 - Bighead Carp (no live possession) – no harvest limit
 - Black Carp (no live possession) – no harvest limit
 - Bowfin – no harvest limit
 - Buffalo – no harvest limit
 - Carp suckers – no harvest limit
 - Common Carp – no harvest limit
 - Freshwater Drum – no harvest limit
 - Gizzard Shad – no harvest limit
 - Grass Carp (no live possession) – no harvest limit
 - Longnose Gar – no harvest limit
 - Paddlefish – 2 Fish Daily Harvest Limit
 - Salmon (Coho and Chinook only) – 5 Fish, in the aggregate, Daily Harvest Limit
 - Shortnose Gar – no harvest limit
 - Silver Carp (no live possession) – no harvest limit
 - Suckers – no harvest limit
 - 2) Disposition of Snagged Fish.
 - A) Every Salmon 10 inches in total length or longer snagged must be taken into immediate possession and included in the daily harvest limit.
 - B) Every Paddlefish 33 inches eye-fork length or less landed while fishing on the Mississippi River between Illinois and Iowa must be taken into immediate possession and included in the daily harvest limit. Every Paddlefish greater than 33 inches eye-fork length must be immediately returned to the water.
 - C) Paddlefish 24 inches eye-fork length or longer landed while fishing on the Mississippi

River between Illinois and Missouri which are immediately returned to the water do not count toward the daily harvest limit. Paddlefish 24 inches eye-fork length or longer landed and not immediately returned to the water are considered taken into possession and must be counted toward the daily harvest limit. Every Paddlefish less than 24 inches eye-fork length must be immediately returned to the water.

- D) Once the daily harvest limit of Salmon or Paddlefish has been reached, snagging must cease.
 - E) All snagged fish taken into possession must be removed from the area which they are taken and disposed of properly, in accordance with Section 5-5 of the Fish and Aquatic Life Code (515 ILCS 5/5-5).
- c) Waters Open to Snagging and Snagging Season.
 - 1) Snagging for fish is permitted from September 15 through December 15 and from March 15 through May 15 within a 300 yard downstream limit below all locks and dams of the Illinois River, except for the area below the Peoria Lock and Dam where snagging is permitted year round within a 300 yard downstream limit.
 - 2) Snagging for fish is permitted from September 15 through December 15 and from March 15 through May 15 within a 300 yard downstream limit below all locks and dams of the Mississippi River between Illinois and Missouri, except for the Chain of Rocks low water dam at Chouteau Island – Madison County, also known as Dam 27 at the Chain of Rocks – Madison County where no snagging is permitted. Snagging is permitted from 1/2 hour before sunrise to 1/2 hour after sunset daily, March 1 through April 15 within a 500 yard downstream limit below locks and dams on the Mississippi River between Illinois and Iowa.
 - 3) Snagging for fish is permitted year-round within a 100 yard limit upstream or downstream of the dam at Horseshoe Lake in Alexander County.
 - 4) Snagging for Chinook and Coho Salmon only is permitted from the following Lake Michigan shoreline areas from October 1 through December 31; however, no snagging is allowed at any time within 200 feet of a moored watercraft or as posted:
 - A) Lincoln Park Lagoon from the Fullerton Avenue Bridge to the southern end of the Lagoon.
 - B) Waukegan Harbor (in North Harbor basin only).
 - C) Winnetka Power Plant discharge area.
 - D) Jackson Harbor (Inner and Outer Harbors).

SPORTFISH

Principal sport fish are the Muskellunge, Tiger Muskie, Northern Pike, Walleye, Sauger, Saugeye, Largemouth Bass, Smallmouth Bass, Spotted Bass, Striped Bass, hybrid Striped Bass, White Bass, Yellow Bass, Bluegill, Redear Sunfish, Rock Bass, White Crappie, Black Crappie, Trout and Salmon. These may be taken only with sport fishing devices by sport fishermen having sport fishing licenses. Other species such as Paddlefish, Catfish, Yellow Perch, Freshwater Drum and Carp are considered both sport and commercial fish, and the means of taking and purposes for which they are taken prescribe the type of license required. Still other species are considered commercial fish, though when taken on sport fishing devices an angler must have a sport fishing license. A fourth category is endangered and threatened aquatic life. (See Endangered and Threatened Aquatic Life).

SPORTFISHING (HOOK AND LINE METHODS UNDER A SPORTFISHING LICENSE)

Any individual possessing a valid sport fishing license may take aquatic life by hand, or may use pole and line, bank pole and line, throw line, trotline, buoyed ganging devices, or other legal devices not exceeding 50 hooks in the aggregate, however, any individual at any one time is allowed to use under his or her immediate control only 2 untagged sport fishing devices and any additional devices up to the aggregate of 50 hooks must be tagged with his or her name and mailing address. If attached to a tree, the device must be attached only to the main trunk below the water line. All untagged devices must be marked with the angler's name and address.

Also permitted are legal-sized cast nets, shad scoops and minnow seines (see Bait Fishing, Crayfish, and Minnows). Smelt may be taken in Lake Michigan with legal size dip nets, gill nets, and seines.

Special fishing regulations at certain waterbodies prohibit the use of some devices or restrict the number of devices; please check the Site-Specific Regulations which are contained in this regulation booklet and are posted at various locations at the sites (boat ramps and site offices) where applicable.

While taking from areas designated as "Catch and Release Fishing Only", all catch and release species must be immediately released unharmed back into the waters from which taken.

SPORTFISHING LICENSE

A sport fishing license entitles an angler to harvest fish, crayfish, turtles or Bullfrogs, except for endangered and threatened aquatic life, within limits denoted in the Statewide Harvest and Size Limits Table and Site Specific Regulations. It is unlawful to sell any aquatic life, or parts thereof, taken by a sport fishing license.

STOCKING

Fish may be immediately released back into the waters from which they were taken, but permission from the Department of Natural Resources must be secured before releasing fish in other waters, except for private water owners. An owner of a body of water may release aquatic life found on the Aquatic Life Approved Species List into waters wholly upon his or her property so long as the aquatic life is purchased from a licensed Aquatic Life Dealer or Illinois Aquaculturist. Transporting aquatic life or natural water from a public water to private waters is prohibited. It is illegal to import, stock, or possess live diploid Grass Carp, Silver Carp, Bighead Carp or hybrid Grass Carp or any species not found on the Aquatic Life Approved Species List. A Restricted Species Transportation Permit must be secured from the Department of Natural Resources before importing or stocking triploid Grass Carp.

SUNFISH AS BAIT

There is nothing in the Illinois Fish and Aquatic Life Code which prohibits the use of legally taken Sunfish as bait for another species of fish, but Sunfish can only be used in the body of water from which they were taken. The Sunfish must have been taken by a properly licensed sport fisherman using legal sport-fishing devices. You must also observe all length limits and daily harvest limits both where the Sunfish were taken and where they are being used as bait. Also, it is illegal to cut up or dress or be in possession of cut up or dressed fish on any body of water where there is a size limit for that particular species of fish. Examples of Sunfish species legal for use as bait include Bluegill, Redear Sunfish, Green Sunfish, Longear Sunfish, Pumpkinseed Sunfish, Warmouth and their hybrids.

TAGGED OR MARKED FISH

Fisheries biologists attach tags to fish for research purposes. Please report all tags found. If the fish is kept, return the tag to the address printed on the tag or the local fisheries office in your area. If a tagged fish is released, the tag should be reported but left in the fish in good condition. Information regarding the species of fish caught, the length and the weight of the fish, location captured, and the tag number, if present, should also be reported.

Sport fishermen are strongly advised to not tag or fin clip fish caught on state and/or public waters.

TAKE

To lure, kill, destroy, capture, gig or spear, trap or ensnare, or attempt to do so.

TRANSPORTING WATER, FISH, OR OTHER AQUATIC LIFE

It is unlawful to:

- 1) import or move live aquatic life without securing permission from the Department (bait purchased from a licensed bait shop may be transported);
- 2) remove natural water from waters of the State via bait bucket, livewell, baitwell, bilge, etc.;
- 3) remove any watercraft, boat, boat trailer or other equipment from waters of the State without emptying and draining any bait bucket, livewell,

baitwell, bilge, etc., or any other compartment capable of holding natural waters; and
 4) use aquatic life (fish, crayfish, or amphibians) as bait within the State of Illinois other than in the waters where they were legally taken.

TROLLING

Trolling is permissible, provided the angler has not more than three poles and lines with not more than two hooks or lures on each. In waters where there is a 2 Pole and Line Only designation, no more than two poles and lines with not more than two hooks or lures on each may be used.

TROT AND TROLLEY LINES

Hooks on trot lines, throw lines and similar devices shall be spaced not less than 24 inches apart, except on trolley or power lines used in Lake Michigan. Trot, throw lines and similar devices are unlawful on Two Pole and Line Fishing Only areas unless specifically authorized in the Site Specific Regulations. Fish taken by these methods must not exceed the statewide regulations (harvest

limits and length limits). Trotlines and other legal hook and line devices shall not have more than a combined total of 50 hooks and must be checked at least every 24 hours. Trotlines and other sport-fishing devices left unattended must be tagged with the name and mailing address of the operator. All required tags shall be in a position to be at all times exposed to public view.

TWO POLE AND LINE FISHING ONLY

Sport fishermen must not use more than 2 poles and each pole must not have more than 2 hooks or lures attached (Alabama rigs not allowed) while fishing on waters designated as Two Pole and Line Fishing Only in the Site Specific Regulations, except that legal size cast nets, shad scoops, and minnow seines may be used to obtain baitfish, minnows and crayfish to use as bait, provided that they are not sold, and except that Bullfrogs may be taken by hand, gig, pitchfork, spear, landing net and hook and line during Bullfrog season.

UNATTENDED DEVICES

Any unattended device used to catch aquatic life or to hold aquatic life is required to have the angler's name and address clearly displayed on the device. Bank poles and jug lines must be individually labeled, while a single trotline with up to 50 hooks only requires one label. Unattended devices must be checked at least once every 24 hours.

WATER OF THE STATE

Any water within the jurisdiction of the State of Illinois that is adapted for the purposes of navigation or public access.

WATERFOWL BLINDS

It is unlawful to fish within 250 yards of an occupied duck or goose blind on Department-owned or -managed sites during the migratory waterfowl season. This includes all sites listed and not listed in this regulations booklet.

STATEWIDE SPORTFISHING REGULATIONS

AQUATIC LIFE	STATEWIDE CREEL AND SIZE LIMITS*
ALLIGATOR GAR	Harvest limit is 1 Alligator Gar per 24 hours.
BLUE, CHANNEL, AND FLATHEAD CATFISH	There are no harvest or size limits except in those waters listed under Site Specific Regulations.
BLUEGILL, REDEAR SUNFISH, OTHER SUNFISH	There are no harvest or size limits except in those waters listed under Site Specific Regulations.
COMMON SNAPPING TURTLES AND BULLFROGS	Season: June 15 to October 15, both dates inclusive. The daily harvest limit for Common Snapping Turtles is 2 with a possession limit of 4. The daily harvest limit for Bullfrogs is 8 with a possession limit of 16. Indigenous Amphibian and Reptile taxa (excluding Common Snapping Turtles and Bullfrogs) possession limit is 8 collectively with no more than 4 per taxa.
CRAPPIE (WHITE, BLACK OR HYBRID CRAPPIE)	There are no harvest or size limits except in those waters listed under Site Specific Regulations.
INJURIOUS SPECIES	For injurious species, as described in 17 Ill. Adm. Code 805, there are no harvest or size limits. Possession of live specimens, progeny thereof, viable eggs, or gametes is prohibited.
LAKE STURGEON	Protected; No possession.
LARGEMOUTH BASS, SMALLMOUTH BASS, SPOTTED BASS	Daily harvest limit is 6 Bass, either singly or in the aggregate, except as specified under Site Specific Regulations. In rivers and streams and their tributaries statewide, except for the Mississippi, Ohio (including Golconda Marina), and Wabash Rivers, the daily harvest can contain no more than 3 Smallmouth Bass. In rivers and streams and their tributaries statewide, except for the Mississippi, Ohio (including the Golconda Marina), Wabash and Illinois Rivers, Calumet River, Lake Calumet Connecting Channel, Calumet Sag Channel and navigable portions of the Grand Calumet River and Little Calumet River, all Smallmouth Bass must be immediately released between April 1 and June 15. There is no statewide size limit.
MUSKELLUNGE, NORTHERN PIKE AND THEIR HYBRIDS	All Muskellunge and Muskellunge hybrids (Tiger Muskie) taken must be 36" in total length or longer, except as specified under Site Specific Regulations. No more than 1 Muskellunge or Muskellunge hybrid (Tiger Muskie) may be taken per day, except as specified under Site Specific Regulations. All Northern Pike taken must be 24" in total length or longer, except in the Mississippi River where there is no size limit. No more than 3 Northern Pike may be taken per day, except as specified under Site Specific Regulations.
PADDLEFISH	Daily harvest limit is 2 Paddlefish. Please refer to Site Specific Regulations for the Mississippi River between Illinois and Iowa and the Mississippi River between Illinois and Missouri.
STRIPED BASS (OCEAN ROCKFISH), WHITE BASS, YELLOW BASS AND HYBRIDS	There are no daily harvest limits or minimum size limits for Striped Bass (Ocean Rockfish), White Bass, Yellow Bass and their hybrids, which are less than 17" in total length, except in those waters listed under Site Specific Regulations. For these fish 17" in total length or longer, the daily limit is 3 fish, either singly or in the aggregate, except in the Mississippi River between Illinois and Missouri where there is a 30 fish daily harvest limit for all Striped, White, Yellow or hybrid Striped Bass. In the Mississippi River between Illinois and Iowa, there is a 25 fish daily harvest limit on Striped Bass, White Bass, Yellow Bass and their hybrids, either singly or in the aggregate.
TROUT AND SALMON	Daily harvest limit is 5 trout or salmon, either singly or in the aggregate.
WALLEYE, SAUGER OR THEIR HYBRID	All Walleye, Sauger, or their hybrid (Saugeye) taken must be 14" in total length or longer, except in the Mississippi River, Wabash River, or as specified under Site Specific Regulations. Daily harvest limit is 6 Walleye, Sauger or their hybrid, either singly or in the aggregate, except in those waters listed under Site Specific Regulations.

*The above are statewide sportfish regulations. Specific water areas may have sportfish regulations which differ and are more restrictive. Please check the Site Specific Sportfish Regulations which follow and are posted (at boat launches and at site offices) at each water area where applicable. **State Endangered and Threatened Species may not be taken for any purpose.**

FROGS AND TURTLES

A sport fishing license is required to harvest reptiles and amphibians. No person shall harvest or possess any species of reptile or amphibian listed as endangered or threatened in Illinois (17 Ill. Adm. Code, Section 1010, except as provided by 17 Ill. Adm. Code, Section 1070). Alligator Snapping Turtle *Macrochelys temminckii* is protected and may not be taken by any sport fishing method.

Any captured reptiles or amphibians which are not to be retained in the possession of the captor should be immediately released at the site of capture, unless taken with a lethal method (such as bow and arrow, gig, spear, pitchfork) which does not permit "release with no harm". All such taken Bullfrogs and Common Snapping Turtles must be kept and counted in the daily harvest. No culling of such taken species is permitted.

	Bullfrog <i>Lithobates catesbeianus</i>	Common Snapping Turtle <i>Chelydra serpentina</i>
Method of Taking and Capture	Bullfrogs may be taken only by hook and line, gig, pitchfork, spear, bow and arrow, hand, or landing net.	Common Snapping Turtles may be taken only by hand, hook and line, or bow and arrow except in the following Illinois counties where bowfishing for common snapping turtles is not permitted: Randolph, Perry, Franklin, Hamilton, White, Gallatin, Saline, Williamson, Jackson, Union, Johnson, Pope, Hardin, Massac, Pulaski, and Alexander.
Season	June 15 through October 15, both dates inclusive	June 15 through October 15, both dates inclusive
Daily Harvest and Possession Limits	Daily Harvest Limit is 8; possession limit is 16	Daily Harvest Limit is 2; possession limit is 4

Bullfrogs and Common Snapping Turtles may not be taken by bowfishing tournament participants.

All other species of unprotected reptiles and amphibians (excluding Bullfrogs and Common Snapping Turtles) may only be taken by hand. This shall not restrict the use of legally taken reptiles or amphibians as bait by sport fishermen. For indigenous amphibian and reptile taxon (excluding Bullfrogs and Common Snapping Turtles) the possession limit is 8 collectively with no more than 4 per taxa.

DON'T TAKE AN ALLIGATOR SNAPPING TURTLE!

ALLIGATOR SNAPPING TURTLES ARE A STATE ENDANGERED SPECIES AND FULLY PROTECTED BY LAW

The State of Illinois is reintroducing the native alligator snapping turtle to strategic watersheds in Illinois.

You can help this unique reptile recover by:

- Learning the difference between common snapping turtles and alligator snappers.
- Protecting river corridors and associated wetland habitat.
- Reporting any illegal capture, harvest or possession of alligator snapping turtles.
1-877-2DNRLAW(236-7529)

Alligator: 3 rows of prominent, pyramid- shaped projections on shell; large head; pronounced beak; worm-like lure on tongue. May NOT be taken in Illinois.

Common: Smooth shell with moderate projections; long neck and tail with sawtooth projections. These turtles may legally be taken with an Illinois fishing license. The daily harvest limit is 2 turtles and possession limit is 4.

SITE SPECIFIC SPORTFISHING REGULATIONS

SITE SPECIFIC REGULATIONS are listed by water area affected. The coverage of the regulation is dictated by the extent of the water area(s) listed and not by the county. In some cases, regulations for a given water area or site may extend beyond the counties listed. The listed counties refer to the location of the dam or outfall for impoundments or mouths of small streams. Since large rivers or streams usually flow through many counties, the term "Multiple" is used rather than listing all counties where the large stream or river flows. If a water area is not listed, or if a specific species is not listed, then statewide regulations apply. Check the bulletin boards at the specific site for any emergency changes to regulations.

Various special regulations are used by fisheries managers to protect the fishery. A **MINIMUM LENGTH LIMIT** means that fish less than a designated length must be released immediately. A **PROTECTED SLOT LENGTH LIMIT** means that fish within a designated length range must be released immediately. A **DAILY HARVEST LIMIT** means that no more than the designated limit of fish may be taken daily.

The **Daily Harvest Limit** applies to all species listed for the regulation added together (i.e., in the aggregate). For example, **Large or Smallmouth Bass - 3 Fish Daily Harvest Limit** means that only 3 Largemouth Bass, or 3 Smallmouth Bass, or a 3 fish combination of the two species (e.g., 2 Largemouth Bass and 1 Smallmouth Bass) may be taken.

SITE SPECIFIC REGULATION CODE DEFINITIONS provide clarification regarding additional restrictions or special provisions listed in numbered parentheses [e.g., (2)] within the Site-Specific Regulations water areas.

- (1) Sport fishermen must not use more than 2 poles and each pole must not have more than 2 hooks or lures attached (Alabama rigs not allowed) while fishing, except that legal size cast nets (in accordance with Section 810.50(a)(2)), shad scoops, and minnow seines may be used to obtain shad, minnows and crayfish to use as bait, provided that they are not sold, and except that bullfrogs may be taken by hand, gig, pitchfork, spear, landing net and hook and line during bullfrog season.
- (2) Sport fishermen may not use a minnow seine, minnow trap, cast net or shad scoop for bait collecting in the following water areas:

Charleston Lower Channel Lake tailwaters from that portion of the Embarras River from the Charleston Lower Channel Lake Dam downstream to the Route 130 Bridge.

Clinton Lake tailwaters from that portion of Salt Creek from the Clinton Dam downstream to the Route 10 Bridge

Cook County Forest Preserve District Waters (except in the Des Plaines River)

Lake Decatur tailwaters from that portion of the Sangamon River from the Lake Decatur Dam downstream to the Route 48 Bridge.

- (3) All jugs set in a body of water shall be under the immediate supervision of the fisherman. Immediate supervision shall be defined as the fisherman being on the water where the jugs are set and readily available to identify jugs to law enforcement officers.
- (4) When using live bait, all live bait in excess of 8" in total length shall be rigged with a quick set rig. The hook shall be immediately set upon the strike. A quick set rig is defined as follows: a live bait rig with up to 2 treble hooks attached anywhere on the live bait; single hooks are prohibited. This subsection does not apply to trotlines, jug lines, etc., if allowed on the lake.
- (5) Sport fishermen may take carp, carpsuckers, buffalo, gar, bowfin and suckers by pitchfork, gigs, bow and arrow or bow and arrow devices.
- (6) The daily harvest limit for yellow perch shall not exceed 15 fish in the combined waters of Lake Michigan, Calumet River, and Chicago River including its North Branch, South Branch and the North Shore Channel.
- (7) It shall be illegal to possess trout during the period of October 1 to 5 a.m. on the third Saturday in October (both dates inclusive) that were caught during that period.
- (8) It shall be illegal to possess trout during the period of March 15 to 5 a.m. on the 1st Saturday in April (both dates inclusive) that were caught during that period.

- (9) Catch and Release Fishing Only means that fish (all or listed species) caught must be immediately released alive and in good condition back into the water from which they came.
- (10) The 48 inch total length limit on pure muskellunge applies to that body of water listed as well as any tailwaters as defined below:

Evergreen Lake (McLean County) – including the portion of Six Mile Creek below the Evergreen Lake Dam downstream to its confluence with the Mackinaw River.

Fox Chain O' Lakes (Lake/McHenry Counties) – including the Fox River south of the Wisconsin-Illinois boundary to the Algonquin Dam and the Nippersink Creek upstream to the Wilmot Road Bridge.

Kinkaid Lake (Jackson County) – including the portion of Kinkaid Creek below the Kinkaid Lake Dam downstream to the Route 149 Bridge.

Lake Shelbyville (Moultrie/Shelby Counties) – including the portion of the Kaskaskia River below the Lake Shelbyville Dam downstream to the State Route 128 Road Bridge near Cowden.

Otter Lake (Macoupin County) – including the portion of Otter Creek below Otter Lake Dam downstream to its confluence with East Otter Creek.

Pierce Lake (Winnebago County) – including the portion of Willow Creek below the Pierce Lake Dam downstream to Forest Hills Road.

- (11) It shall be unlawful to enter upon a designated duck hunting area between sunset of the Sunday immediately preceding opening day of regular duck season through the day before regular duck season and Canada goose season as posted at the site, or to fish on such areas during the regular duck season except in areas posted as open to fishing. It shall be unlawful to enter upon areas designated as waterfowl rest areas or refuges from two weeks prior to the start of the regular duck season through the end of duck and Canada goose season.
- (12) It shall be unlawful to trespass upon a designated waterfowl hunting area during the 7 days prior to the regular duck season, or to fish on such areas during the regular duck and Canada goose season except in areas posted as open to fishing. It shall be unlawful to trespass upon areas designated as waterfowl rest areas or refuges from 2 weeks prior to the start of the regular duck season through the end of duck and Canada goose season.
- (13) It shall be unlawful to enter upon areas designated as waterfowl hunting areas during the 10 days prior to the start of the regular duck season, or to fish on such areas during the regular duck season except in areas posted as open to fishing. It shall be unlawful to enter upon areas designated as waterfowl rest areas or refuges from 10 days prior to the start of the regular duck season through the end of duck and Canada goose season.

SITE SPECIFIC SPORTFISHING REGULATIONS

Statewide Sportfishing Regulations are enforced in addition to each area's Site Specific Regulations

ALEDO CITY LAKE

City of Aledo • Mercer

All Fish	2 Pole and Line Fishing Only (1)
Bluegill or Redear Sunfish	25 Fish Daily Harvest Limit
Channel Catfish	6 Fish Daily Harvest Limit
Large or Smallmouth Bass	Protected Slot Length Limit with no possession of Fish greater than or equal to 12 inches and less than 18 inches; 3 Fish Daily Harvest Limit

ALTAMONT NEW CITY RESERVOIR

City of Altamont • Effingham

All Fish	2 Pole and Line Fishing Only (1)
Large or Smallmouth Bass	15 inch Minimum Length Limit; 1 Fish Daily Harvest Limit

ANDERSON LAKE STATE FISH AND WILDLIFE AREA

State of Illinois • Fulton

Recreational Use Restrictions	Waterfowl Refuge or Hunting Area (12)
Large or Smallmouth Bass	12 inch Minimum Length Limit

ANDOVER LAKE

Village of Andover • Henry

All Fish	2 Pole and Line Fishing Only (1)
Channel Catfish	6 Fish Daily Harvest Limit

ANNA CITY LAKE

City of Anna • Union

All Fish	2 Pole and Line Fishing Only (1)
Bluegill or Redear Sunfish	8 inch Minimum Length Limit; 10 Fish Daily Harvest Limit
Channel Catfish	6 Fish Daily Harvest Limit
Large or Smallmouth Bass	15 inch Minimum Length Limit; 3 Fish Daily Harvest Limit

APPLE RIVER

State of Illinois • Jo Daviess

(WITHIN APPLE RIVER CANYON STATE PARK AND SATELLITE BOUNDARIES)

NOTE: EXPLANATIONS FOR NUMBERS CONTAINED IN PARENTHESIS ARE FOUND ON PAGE 12

HOW TO MEASURE A FISH

How to Measure a Fish (Total Length)

Total length is measured from the tip of the snout to the end of the tail, with the fish laid flat on a ruler, its mouth closed, and its tail lobes pressed together.

How to Measure a Paddlefish

Paddlefish are measured from the eye to the fork of the tail.

How to Measure a Sturgeon

Sturgeon are measured from the tip of the snout to the fork of the tail. Only shovelnose sturgeon are legal to keep.

TOURNAMENT FISHING PERMIT

A Fishing Tournament Permit issued by the Department of Natural Resources is required for any fishing tournament event. This includes Hook and Line Fishing Tournaments and Bowfishing Tournaments that are held in any of the waters listed in Section 810.45, Section 810.15(d); and in any public owned or Department managed lake, river, or stream in Illinois. Failure to obtain a Fishing Tournament Permit or comply with the following rules is a violation of Section 20-35 of the Fish and Aquatic Life Code.

Fishing Tournament – an organized event, other than a fishing derby, where:

- 1) the event is sponsored or promoted by an individual or organization;
- 2) participants compete for trophies, cash, prizes, citation or other recognition for participation in the event;
- 3) the event is conducted during a specified time; and
- 4) twenty or more individuals participate in the event OR an exemption to Statewide or Site-Specific Regulations is requested.

Fishing Derby – an organized event conducted for children under the age of 16 who are attending primary school, senior citizens (65 years old and older), sport fishermen with disabilities, or other school-sanctioned groups when the principal purpose is education or enjoyment, rather than competition among sport fishermen. Fishing Tournament Permits are not required for a fishing derby.

The Fishing Tournament Permit received by the applicant serves as the IDNR Site Activity Permit for tournaments held at IDNR sites.

For events held at State sites, the tournament director or organizer must submit a signed Release, Waiver, and Indemnification form, available from the Department, to the Site Superintendent prior to the event. In addition, the tournament director or organizer prior to the event must:

- 1) provide proof of liability insurance of \$1,000,000; or
- 2) require each participant to sign a liability waiver, attached to the issued permit, and submit the waiver(s) to the Department site office.

A copy of the Fishing Tournament Permit must be in the possession of the director or organizer at all times during the event.

Special Length Limit and/or Daily Harvest Limit exemptions are allowed when requested on the Fishing Tournament Permit application, approved by the Department, and stated on the Fishing Tournament Permit.

Exemptions to Site-Specific Regulations will only be approved for:

- 1) catch, hold for weigh-in, and release Black Bass Fishing Tournaments in Lake Michigan (Illinois Portion) for which the Special Minimum Length Limit will be 14 inches and the Daily Harvest Limit will be 3 fish daily;
- 2) Youth-only catch, hold for weigh-in, and release Black Bass Fishing Tournaments, for which the Special Minimum Length Limit will be 12 inches and the Daily Harvest Limit will be 5 fish per boat. Youth-only is defined as 18 years old and younger;
- 3) catch, hold for weigh-in, and release Muskie Fishing Tournaments (all waters), provided all fish are released unharmed immediately after a quick weigh-in; and
- 4) catch, hold for weigh-in, and release Black Bass Fishing Tournaments in the Mississippi River (between Illinois and Iowa) and which are permitted by the Iowa Department of Natural Resources, for which the special Minimum Length Limit will be 12 inches and the Daily Harvest Limit will be 5 fish per boat.

The application for a Fishing Tournament Permit is available online at <https://www.ifishillinois.org>. Applications will be accepted beginning November 1st for the following calendar year. Applications must be fully completed with all requested information and received by the Department at least 30 days prior to the tournament.

The issuance or denial of a Fishing Tournament Permit by the Department shall be based on the following criteria:

- 1) The capability of the fishery resource to absorb the tournament with minimal impact to its well-being.
- 2) The need for emergency protective procedures to protect the sport fisheries resources of the State and the general health, safety and welfare of the general public as provided for in Section 810.80.
- 3) The criteria and evaluation required for approval of a Site Activity Permit, described in 17 Ill. Adm. Code 110.4.

Appeals of denied permits must be made in writing to the Department within 10 days after receipt of the denial. Any supplemental information requested must be included in the appeal.

Required provisions for holding, handling, and releasing fish to protect fish health in catch, hold for weigh-in, and release Hook and Line Fishing Tournaments:

- 1) Tournament officials must be able to certify that all boats will be required to possess a livewell (except Muskie Fishing Tournaments) fitted with a functioning aerator and water pump.
- 2) Individual boats and sport fishermen returning their catches of fish back to a release site must adhere to Daily Harvest Limits for the waterbody or the Special Daily Harvest Limit listed in the Fishing Tournament Permit.
- 3) For catch, hold for weigh-in, and release Muskie Fishing Tournaments, all boats must have a fish cradle (made from netting) to temporarily hold the muskie in the water while an official determines the length or weight of the fish prior to release. Muskies may not be transported to a weigh-in site.
- 4) During the months of July and August, all catch, hold for weigh-in, and release Black Bass Fishing Tournaments must be off the water between 1:00 p.m. and 4:00 p.m.

Bowfishing tournaments may be held in any of the public waters open to bowfishing listed in Section 810.45 or public waters listed in 810.15. Bowfishing tournaments are subject to the following additional rules:

- 1) All non-native species legal to take with bowfishing methods from waters listed in Sections 810.15 and 810.45 have an unlimited daily harvest limit however no possession of LIVE Bighead Carp, Black Carp, Grass Carp, or Silver Carp is permitted.
- 2) No exemptions will be granted for the wanton waste and fish abandonment provisions in Section 810.14.

Special note for Fishing Tournaments held on the Mississippi River between Illinois and Iowa – an Iowa Fishing Tournament Permit is required if also fishing Iowa waters.

For a complete listing of rules for Fishing Tournaments see <https://dnr.illinois.gov/content/dam/soi/en/web/dnr/adrules/documents/17-810.pdf>

FAMILY FRIENDLY PLACES TO FISH

A lifetime of fishing enjoyment often begins during childhood. Introducing children and young adults to positive fishing experiences can develop an appreciation for the sport, fosters stewardship of aquatic resources, and facilitates interactions with native plants and animals. Sport fishing is a popular recreational activity with physical and mental benefits. For new and young anglers, our fisheries staff recommend these sites for memorable angling experiences.

Siloam Springs State Park (Adams County) has 2 waterbodies. Crab Apple Lake (58 acres) has a paved boat launch, is electric motor only, and provides fishing for Largemouth Bass, Bluegill, Redear Sunfish, Crappie, and Channel Catfish. A youth-only fishing pond, located just north of the main lake, is stocked with the same species. Crab Apple Lake also is stocked with catchable trout in the spring and fall.

4 5 6 8 9 10 11 13 15

Busse Woods Lake (Cook County) has Black Crappie, Bluegill, Channel Catfish, Largemouth Bass and Walleye. The lake even has Musky! There is an improved path around much of the lake, multiple parking areas, and fishing walls/piers. There is a concrete launch and the lake is no wake. Catchable trout are stocked in the spring and fall. Vera Meineke Nature Center at Spring Valley (approx. 1 mile) is an Access to Fishing location.

1 2 4 5 6 8 9 14

Sam Parr SFWA (Jasper County) has Largemouth Bass, crappie, and catfish that are available to anglers at almost any time of the year. There is plenty of shoreline access in addition to fishing piers. The lake is no-wake, regardless of motor size.

2 4 6 8 9 10 11 13

Silver Springs State Fish and Wildlife Area (Kendall County) features three fishable lakes, including a small pond ideal for kids. The larger lakes have Largemouth and Smallmouth Bass, catfish, Redear, and Bluegill. There is an improved path and easy walking around all the lakes. Bait and food are available from the concessionaire along with rental of boats. A gravel launch with a sandy area is present on Loon Lake for launching small watercraft (trolling motor only). Catchable trout are stocked in the spring and fall. The Plano Village Hall (approx. 4 miles) is an Access to Fishing site.

1 2 3 4 5 6 7 8 9 10 14 15

1-Access to Fishing 2-accessible pier 3-bait available 4-boat fishing 5-catchable trout 6-fishing pier 7-food available 8-hiking trails 9-picnic areas 10-playground areas 11-RV camping 12-swimming beach 13-tent camping 14-watercraft rental 15-youth-only (under 16) fishing

FAMILY FRIENDLY PLACES TO FISH

These staff picks feature accessible shoreline fishing, nearby places for bait, picnicking areas, nearby restrooms, and other non-fishing recreation opportunities. Some of these sites feature youth-only ponds (i.e., must be under 16 to fish; licensed adults can assist) or may be Catchable Trout Program locations (see Catchable Trout Program in this Guide). Loaner equipment is available through the Access to Fishing program at some of these sites or at locations close by. Many of these sites also are in or near state parks or near other public attractions, making them excellent choices for a full day or a weekend trip with family and friends. See our Places to Fish on the ifishillinois.org website for additional fishing opportunities.

I&M Canal Lock 14 (LaSalle County) has shoreline fishing near the confluence of the Vermilion and Illinois rivers. Largemouth Bass, Bluegill, Redear, and Hybrid Sunfish are available at the site. The Peru South Shore Ramp is located just downstream of the lock and allows boating access to the nearby Illinois River. The entire I&M Canal is electric trolling motor only and canoes, kayaks, and similar watercraft are suitable to be launched. In addition, the site also is stocked with catchable trout in the spring and fall. Biking along the I&M Canal State Trail offers a historic and natural view of the area.

4 5

Fairview Park (Macon County) features a kids-only fishing pond with close parking and a surrounding concrete walkway. The park also has extensive paved walking paths, tennis courts, and a skate park. The walking path runs along and crosses Stevens Creek and the Sangamon River and connects to Rock Springs Conservation Area. Rock Springs Conservation Area (approx. 5 miles) is an Access to Fishing location.

1 2 3 8 9 10 15

Miller Park, Bloomington (McLean County) is a 16-acre lake that provides fishing for Largemouth Bass, Bluegill, and Channel Catfish. The lake also is stocked with catchable trout in the spring. Other family-oriented activities can be found nearby. Heartland Community College (approx. 6 miles) is an Access to Fishing site.

1 5 9 10 14

Jones Park Pond (St. Clair County) is located in East St. Louis. Jones Park Pond is 7 acres and has plenty of shoreline access for fishing. The pond is stocked with channel catfish as well as catchable trout in the spring and fall. Young anglers also can expect to catch Largemouth Bass and panfish. The park also has playgrounds, covered shelters, and walking paths. Frank Holton State Park (approx. 5 miles) is an Access to Fishing site.

1 2 5 6 9 10

1-Access to Fishing 2-accessible pier 3-bait available 4-boat fishing 5-catchable trout 6-fishing pier 7-food available 8-hiking trails 9-picnic areas 10-playground areas 11-RV camping 12-swimming beach 13-tent camping 14-watercraft rental 15-youth-only (under 16) fishing

FAMILY FRIENDLY FISHING SPOTS

Fishing can be an exciting activity when there is a fish on the line, but in between those moments, it is necessary to patiently wait, which can be tough for a child for long periods of time. Here are some tips for keeping kids happily fishing. To begin, take lots of shorter trips rather than a full day. Fish more readily take live bait so try starting with worms and wax worms. If your young one is getting antsy, plan to take breaks for a nature walk. Point out other wildlife, like birds, turtles, and frogs. Binoculars are a great item to have along when kids need a change of pace. For other helpful tips and an explanation of fishing basics visit ifishillinois.org

Lake Le-Aqua-Na SRA (Stephenson County) has two waterbodies. Lake Le-Aqua-Na has a paved boat ramp, is electric motor only, and provides fishing for Largemouth Bass, Bluegill, Redear Sunfish, and Channel Catfish. The lake was recently renovated and restocking began in 2022. There is a kids-only fishing pond, located near the upper end of the main lake, with hybrid sunfish and catfish. Waddams Creek at the site is stocked with catchable trout in the spring. The site also has multi-use trail systems (hiking, biking, equestrian), a beach suited for children, and campground.

2 4 5 6 8 9 10 11 12 13 15

Kickapoo State Recreation Area (Vermilion County) has several small lakes with fishing access. Catchable trout are stocked in the spring and the fall (see Catchable Trout Program in this Guide). Access to Fishing equipment is available at Kennekuk County Park (6 miles). The onsite concessionaire caters to family-friendly activities, including paddling and tubing on the Middle Fork Vermilion River, Illinois' only National Scenic River. The Middle Fork also offers decent Smallmouth Bass fishing.

1 2 3 4 5 6 7 8 9 10 11 13 14

Arrowhead Lake (Williamson County) is located on the east edge of Johnston City. Arrowhead Lake is a 30 acre reservoir that offers fishing for Largemouth Bass, Bluegill, Redear Sunfish, Channel Catfish, and Crappie. There is a concrete boat launch and the lake is electric motor only. The surrounding area has walking trails, playgrounds, covered shelters, and a campground. Arrowhead Lake Campground is an Access to Fishing site.

1 4 6 8 9 10 11 13

Rock Cut State Park (Winnebago County) has three waterbodies to fish. Pierce Lake, the largest, has a paved boat ramp, is no wake, and has shoreline access and fishing piers. Olson Lake has shoreline access and is open to boats with electric motors and carry-in watercraft. Both of these lakes have Largemouth Bass, Bluegill, Crappie, and Muskie. A youth-only fishing pond was recently renovated and has plenty of Hybrid Sunfish, catfish, and shoreline access. The on-site concessionaire provides watercraft rentals, bait, tackle, and food. Swimming is allowed at the beach on the southwest end of Olson Lake.

2 3 4 5 6 7 8 9 10 11 12 13 14 15

ILLINOIS SPORT FISHING AWARDS PROGRAMS (HOOK AND LINE OR BOW AND ARROW)

The Division of Fisheries offers several angler recognition awards for fish caught in Illinois waters either by hook and line or by bow and arrow.

First Fish, Big Fish, and Master Angler Awards are available at <https://www.ifishillinois.org>. They may be downloaded and printed from a personal computer.

Information on how to submit a potential state record fish can be found at <https://www.ifishillinois.org>.

Completed applications for either Hook and Line or Bow and Arrow State Record Fish awards must be sent to DNR Havana Field Headquarters, Attn: Record Fish, 700 S. 10th Street, Havana, IL 62644. State Record Fish Awards are sent to anglers at the end of the fishing season.

STURGEON IN ILLINOIS WATERS

Did you know there are three species of sturgeon in waters of Illinois? With a maximum age of 150 years, the **state-endangered Lake Sturgeon** is the largest of the three species growing as large as 8 feet long and 300 pounds! Lake Sturgeon are being caught more frequently by Illinois' anglers as a result of state and federal recovery efforts. Lake Sturgeon are a protected species and **MUST BE RELEASED IMMEDIATELY**.

The **state and federally-endangered Pallid Sturgeon** can live over 40 years and reach a size of 5 feet long and 65 pounds. Pallid Sturgeon are a protected species and **MUST BE RELEASED IMMEDIATELY**.

Shovelnose Sturgeon is the smallest of the three species, living over 20 years and rarely reach sizes over 30 inches and 5 pounds. Shovelnose Sturgeon support sport fisheries and a regulated commercial fishery in designated waters of Illinois.

Photo credit: Missouri Department of Conservation

Pallid Sturgeon, Shovelnose Sturgeon and their hybrids can be difficult to identify.

Lake Sturgeon

ILLINOIS LAKE STURGEON RECOVERY PROGRAM

Lake Sturgeon are a State-endangered fish species native to the Mississippi River and its tributaries. Lake Sturgeon are currently under review for potential federal listing by the U.S. Fish and Wildlife Service (USFWS). The Lake Sturgeon is endangered in Illinois mainly due to the inability of the fish to reach upstream spawning areas because of the construction of dams and the destruction of spawning areas through channelization, siltation, impoundment and pollution. Excessive fishing in the late 1800s and early 1900s also contributed to the problem. Recovery and management of Lake Sturgeon is a complex, long-term effort, requiring basin-wide support from resource managers, hatchery staff, researchers, anglers, and conservation leaders; however, with committed efforts this resource may be able to flourish for future generations. In June 2023, the Missouri Department of Conservation offered the Illinois Department of Natural Resources - Division of Fisheries a unique opportunity to acquire 11,000 Mississippi-strain juvenile Lake Sturgeon from the USFWS Neosho National Fish Hatchery with the purpose to stock Lake Sturgeon in Illinois to aid in this basin-wide recovery program. For more information about the Lake Sturgeon Recovery Program in Illinois, visit www.ifishillinois.org.

CATCHABLE TROUT PROGRAM

The Illinois Department of Natural Resources reinstated its Catchable Trout Program in 1994. Various lakes and streams are annually stocked with catchable size (10-11 inches) trout in the spring or fall. To legally harvest rainbow and/or brown trout from the Catchable Trout Program sites or any inland waters of the state, licensed anglers also must have an Inland Trout Stamp. The statewide Daily Harvest Limit is five trout per angler.

At Catchable Trout Program sites, spring catchable trout opens at 5 a.m. on the first Saturday of April and fall catchable trout opens at 5 a.m. on the 3rd Saturday of October. Anglers may not harvest trout during the closed periods of March 15 until the spring opener or during October 1 until the fall opener. Anglers may utilize these waters for other species during the closed periods. The closed periods have been established to accommodate the stockings and let stocked fish acclimate prior to the opening dates. The stocked trout can overwinter at some sites and anglers may have the opportunity to harvest trout throughout the year, except for during the closed periods.

Select Catchable Trout Program locations are stocked early to provide an early catch and release trout season that begins 2 weeks prior to the regular opening dates (see www.ifishillinois.org for locations). The early catch and release season is also listed for these select waters in the Site Specific Sportfishing Regulations portion of this regulation digest. Anglers must immediately release any trout caught during the early catch and release trout seasons.

Individuals wanting more information about the catchable trout program can contact the Department of Natural Resources, Division of Fisheries, One Natural Resources Way, Springfield, IL 62702-1271; phone 217/782-6424, TDD 217/782-9175. **Anglers wanting more information about site regulations, access areas or boat rentals should contact individual sites or visit the "I Fish Illinois" website: www.ifishillinois.org.**

FISH KILLS IN ILLINOIS LAKES AND PONDS

Anglers are often the first persons to observe dead or dying fish. Fish kills, while rare, can be caused by several factors. Most often, fish become stressed and may die during periods of low oxygen in the water that occur through natural processes such as vegetation decomposition or during high water temperatures – the amount of oxygen that water can hold declines as temperature increases. Fish kills from disease or pollution (intentional or unintentional) are less common. If you come across a significant number of dead or dying fish at a public waterbody, please report it. The Fisheries Division and IDNR Law Enforcement work in cooperation with the Illinois Environmental Protection Agency to identify the cause, determine impacted fish and wildlife, and develop remediation plans for fish kills at public waterbodies. IDNR biologists also coordinate with owners (e.g., municipalities and park districts) of public, non-State waters as necessary.

Fish kills at public waterbodies should be reported, especially if pollution is suspected, to one of the following:

IDNR Local [Conservation Officer](#)

IDNR Law Enforcement 1(217)782-6302

Local [District Fisheries Biologist](#)

Illinois Environmental Protection Agency

1(217) 782-3637

The sudden appearance of dead fish also can cause considerable concern for the owner of a private lake or pond. Again, most of these fish kills result from natural processes, although the frequency and severity of fish kills may be influenced by human activities. Prolonged cloudy weather or snow cover on ice in winter, drought conditions, overcrowded fish populations, excessive aquatic plant or algal growth, and high water temperatures are the most common factors that trigger fish kills in private ponds or lakes.

Fish kills that occur in private ponds are not investigated by the Department. Information on proper pond design, vegetation management, fish stocking, and potential causes of fish kills and preventive measures can be found on www.ifishillinois.org by searching "private ponds". For additional information, contact your local [District Fisheries Biologist](#).

Special Muskie Creel Survey

Sport fishermen can report their Muskie catch at www.ifishillinois.org

The Jared Burke Foundation was founded by 2021 Illinois Outdoor Hall of Fame inductee - John Burke - in memory of his brother Jared Burke. The foundation provides positive outdoor experiences for the disabled, disadvantaged, Veterans and First Responders. Check them out by scanning the QR Code or visiting their Facebook.

URBAN AND COMMUNITY FISHING PROGRAM

WHO?

Illinois residents ages 6 and up.

WHAT?

FREE sportfishing and aquatic resource education clinics.

WHERE?

Statewide, with a focus on urban and metropolitan populations.

WHEN?

Year round

WHY?

To foster an appreciation and understanding of ethical angling practices, IL aquatic resources and sportfishing opportunities to new and underserved anglers.

To enhance angling enjoyment by participants, hybrid sunfish are stocked at public lakes and city parks where regular fishing clinics occur. To further increase accessibility to the program, bus grants are now being provided to IL educators, with amounts up to \$1000 available.

For more information contact your local coordinator:

Northern Illinois (excluding Chicago).....Frank Sladek: 847-204-2978
 Chicago.....Jonathan Schlesinger: 847-294- 4764
 Central Illinois.....Van Grissom: 217-280-3299
 Southern Illinois.....Scott Isringhausen: 618-786-3324

SERVICES PROVIDED

- Classroom lessons
- Youth fishing clinics
- Adult fishing clinics for adult learner, alternately abled and senior groups
- Angling skill clinics
- Loaner tackle kits for libraries, nature centers, park districts and marinas
- Staffing and IDNR displays at career fairs, community events and fishing derbies

EACH YEAR THE URBAN AND COMMUNITY FISHING PROGRAM CONDUCTS 2,000 FISHING AND NON-FISHING EVENTS, REACHING AN AVERAGE OF 100,000 ILLINOIS RESIDENTS ANNUALLY.

To learn more about the Urban and Community Fishing Program visit:

www.ifishillinois.org

ILLINOIS FISH AND YOUR HEALTH

Locally caught fish are a good source of lean protein and are often rich in other nutrients such as omega-3 fatty acids, which may reduce your risk for cardiovascular disease and are essential for childhood development. Pregnant and nursing mothers can also pass omega-3s to their infants in-utero and through breastmilk. In some Illinois waters, chemicals such as polychlorinated biphenyls (PCBs) and methylmercury can build up in fish and can cause harm to people who eat them over extended periods of time.

Illinois issues fish advisories for these waters to help you plan what sport fish to eat and how often they can be eaten. Advisories are not intended to discourage you from eating fish but should be used as a guide to eating fish low in contaminants. You can access meal specific advice for Illinois water bodies through the interactive [fish advisory map here](#) or by using your phone to scan the QR code provided.

In addition to these advisories, a statewide methylmercury advisory is in place for women who are or could someday become pregnant, nursing mothers, and children younger than 15 years of age. The groups included in the advisory may eat up to one meal per week of predatory fish from any Illinois water body, unless special mercury advisories have been issued. Special mercury advisories are based on site-specific sampling data so they can be more restrictive than the statewide advisory. In some cases, special mercury advisories also apply to men and women beyond childbearing age.

You can reduce your exposure to chemicals in fish by varying the type of fish you eat, opting for younger, smaller fish, and following advisory recommendations for Illinois waters. You can also prepare fish in ways that reduce your exposure to PCBs and other contaminants that build up in fatty tissues of fish, such as by removing skin and fatty areas and broiling, baking, or grilling to allow fat to drip away.

These preparation methods will not reduce your exposure to methylmercury or other contaminants stored in the muscle tissue of fish. For these contaminants, the only way to reduce your exposure is by limiting the amount of contaminated fish eaten.

Illinois Water Body

Do Not Eat

Calumet River, including Cal Sag Channel, and Little Calumet River from Cal Sag Channel to the Calumet River (PCBs)	Common Carp, Longer than 12"
Chicago River, North and South Branches, North Shore Channel, and Chicago Sanitary and Ship Canal (PCBs)	Common Carp, Longer than 12"
Des Plaines River, Lockport to Kankakee (PCBs)	Common Carp, Longer than 18"
Franklin Creek (PFAS)	Black Bullhead, Bluegill, Common Carp, Creek Chub, Rock Bass, Smallmouth Bass, White Sucker - All Sizes
Galena River (PCBs)	Common Carp, Longer than 24"
Herrin Lake #1 (PCBs)	Common Carp, all sizes
Lake DePue (PCBs)	Channel Catfish, Longer than 24"
Lake Michigan (PCBs)	Channel Catfish, All sizes Lake Trout, Longer than 29"
Lincoln Trail Lake (Hg)	Largemouth Bass, 14" or Longer
Midlothian Reservoir (PCBs)	Common Carp, Longer than 20"
Mill Creek Lake (Hg)	Largemouth Bass, 19" or Longer

Though contaminant concentrations in Illinois fish have declined in recent decades, there are some Illinois water bodies in which certain fish should not be eaten. For a list of these water bodies, please consult the table above.

For more information, contact the Illinois Department of Public Health at 217-782-5830 or DPH.Tox@illinois.gov, or visit the [IDPH's Fish Advisories page](#) to view the current fish advisories.

POINT SYSTEM FOR REVOCATIONS/SUSPENSIONS

POINT SYSTEM

APPLICATION WITHIN ACTS	POINTS	GROUPS
<p>The point system applies to revocations/suspensions authorized under the following conservation laws:</p> <p>Fish and Aquatic Life Code (515 ILCS 5) Wildlife Code (520 ILCS 5) Endangered Species Protection Act (520 ILCS 10) Timber Buyers Licensing Act (225 ILCS 735) Ginseng Harvesting Act (525 ILCS 20) or any similar federal statutes or rules.</p>	<p>Each time a person is found guilty by a circuit court of the State of Illinois (including supervision or conditional discharge) or by a U.S. District Court in an Illinois District, the specific number of points assigned to such violation shall be charged against that person.</p> <p>Petty Offense = 3 points Class C Misdemeanor = 6 points Class B Misdemeanor = 9 points Class A Misdemeanor = 12 points Class 4 Felony = 24 points Class 3 Felony or higher = 60 points Any violation committed during a period of suspension = 60 points.</p>	<p>Group A Wildlife Code, Endangered Species Protection Act (Wildlife) and Federal Offenses (Wildlife)</p> <p>Group B Fish and Aquatic Life Code, Endangered Species Protection Act (Aquatic Life) and Federal Offenses (Aquatic Life)</p> <p>Group C Timber Buyers Licensing Act</p> <p>Group D Ginseng Harvesting Act, Endangered Species Protection Act (Plants) and Federal Offenses (Plants)</p>

TYPES OF OFFENSES

<p>Type I Offenses = those offenses related to commercial/business activities covered under the Timber Buyer, Taxidermist, Aquaculture, Fish Dealer, Minnow Dealer, Mussel Dealer, Game and Game Bird Breeder, Wild Game Food Dealer, Fur Bearing Animal Breeder, Fur Tanner or Migratory Waterfowl Hunting Area licenses and permits</p>	<p>Type II Offenses = All other offenses related to activities covered under licenses and permits. (Example: hunting, trapping, fishing, etc.)</p>
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------

COMPUTATION OF SUSPENSION PERIODS

<p>For Type I Offenses, any person who, within an 18 month period, accumulates 13 or more points in a single group shall have all licenses, permits and stamps relevant to engage in the activity revoked, and the person's privilege to engage in the activity shall be suspended for a period of time that equals one month for each point accumulated. All accumulated points shall remain in effect for 18 months from the date of arrest that resulted in the point accumulation and shall not be removed or reduced by a period of suspension. Any second or subsequent suspension imposed shall be served consecutively to any earlier suspension.</p>	<p>For Type II Offenses, any person who, within a 36 month period accumulates 13 or more points in a single group shall have all licenses, permits and stamps relevant to that type and group revoked, and the person's privilege to engage in the activity covered by the type and group shall be suspended for a period of time that equals one month for each point accumulated. All accumulated points shall remain in effect for 36 months from the date of arrest that resulted in the point accumulation and shall not be removed or reduced by a period of suspension. Any second or subsequent suspension imposed shall be served consecutively to any earlier suspension.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

SINGLE INCIDENT RULE

<p>The Single Incident Rule shall not be applied in any cases where the highest level violation is a Class A Misdemeanor or higher (12 points or greater) or in cases where violations occurred while the individual was suspended.</p>	<p>In the event that multiple findings of guilt are entered against an individual arising out of a single incident or act, full points shall be assessed only for the finding of guilt with the highest point level with additional points being assessed for the remaining findings of guilt as follows:</p>	<p>Petty Offense = 1 point Class C Misdemeanor = 2 points Class B Misdemeanor = 3 points</p>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------

POINT SYSTEM FOR REVOCATIONS/SUSPENSIONS

EXAMPLES:

A) Type I - Findings of Guilt for Separate Incidents: A person found guilty of violations of no taxidermy license and failure to keep proper records (both Class B Misdemeanors, 9 points each) occurring on different dates is assessed the full 18 points, and revocation of taxidermy license and suspension of taxidermy privileges only is imposed for a period of 18 months.

B) Type I - Findings of Guilt for a Single Incident: A person found guilty of the same violations as A) above (2 Class B Misdemeanors) arising out of a single incident has no revocation/suspension imposed, with 12 points assessed (9+3).

C) Type II - Findings of Guilt for Separate Incidents: A person found guilty of unlawful possession of freshly killed Whitetail deer during closed season (Class A Misdemeanor - 12 points) and taking an over limit of quail (Petty Offense - 3 points) has his/her hunting license, trapping license, migratory waterfowl stamp, habitat stamp, deer/turkey permits, etc. revoked, and Type II privileges suspended in Group A for a period of 15 months.

D) Type II - Findings of Guilt for a Single Incident

1) A person found guilty of violations of taking game birds with a rifle and no hunting license (Class A Misdemeanor and Petty Offense) arising out of a single incident is assessed 15 points and suspension imposed as described in C) above. **The Single Incident Rule does not apply to cases where the highest level violation is a Class A Misdemeanor or higher.**

2) A person found guilty of violations of taking deer without a permit and no hunting license (Class B Misdemeanor and Petty Offense) arising out of a single incident has no revocation/suspension imposed, with 10 points assessed (9 + 1).

E) Imposition of Subsequent Suspensions

1) The person in C) above completes the 15 month suspension, and two months later (less than 36 months from the date of the first violation) again unlawfully possesses a freshly killed Whitetail deer during closed season and is found guilty (12 points). This person's licenses are again revoked and privileges suspended for a period of 27 months (15 + 12).

2) The person in C) above is found guilty of a violation under the Wildlife Code that occurred during the time that his/her privileges were suspended - 60 additional points are assessed and a second suspension is imposed, to run consecutively after the first suspension (15 + 60 = 75 months total).

ADMINISTRATIVE ACTIONS AND ADDITIONAL PROVISIONS

The Department of Natural Resources may also hold an administrative hearing to revoke licenses/suspend privileges in certain egregious cases, wherein a person has had a finding of guilt (including supervision or conditional discharge) in a circuit court of the State of Illinois or by a U.S. District Court in an Illinois District, regardless of whether or not sufficient points for suspension have been reached.

In addition, the Illinois Fish and Aquatic Life Code and Wildlife Code provisions regarding the revocation of licenses/permits and suspension of privileges also include the following: Any person whose license or permit has been revoked or his/her privileges suspended may not, during the period of revocation/suspension 1) be in the company of any person engaged in the activity covered by the revocation/suspension, or; 2) serve as a guide, outfitter or facilitator for any person who is engaged or prepared to engage in the activity covered by the revocation/suspension, until such time as the period of revocation/suspension is completed and the appropriate licenses/permits have been obtained.

REVOCATIONS/SUSPENSIONS IN OTHER STATES AND CANADA

It shall be unlawful for any person to be issued or obtain an Illinois license or permit or while in Illinois, engaged in any activity regulated by the Illinois Fish and Aquatic Life Code or Wildlife Code during the time that person's privileges to engage in the same or similar activities are suspended or revoked by another state, by a federal agency or by a province of Canada.

PENALTIES FOR VIOLATIONS OF REVOCATIONS/SUSPENSIONS/DENIAL OF PRIVILEGE

Persons who violate the prohibitions of their revocation/suspension/denial of privileges shall be guilty of a Class A Misdemeanor with penalties of up to 364 days jail time and up to \$2500.00 in fines.

For more information, contact the Department of Natural Resources - Office of Law Enforcement at (217) 782-6431, or visit www.dnr.illinois.gov

BOUNDARY RIVERS SPORT FISHING

Illinois-Iowa

Officers of Illinois and Iowa will recognize and accept valid sport fishing licenses of either state when legally possessed and used by hook-and-line sport fishermen on the Mississippi River proper forming a common boundary between Illinois and Iowa, including its backwater lakes and sloughs **contiguous with the flow of waters in the main channel; provided that you do not fish from or attach any device or equipment to the main bank of the Mississippi under the jurisdiction of the state where you are not licensed to fish.** You can not fish in any tributaries of the opposite state. You must conform to the regulations of the state in which you are fishing unless the regulations of your licensing state are more restrictive, then you must conform with the more restrictive regulations. The center of the navigation channel is the boundary between Illinois and Iowa. **Tournaments fishing Iowa waters must have an Iowa fishing tournament permit, even if launching from the Illinois side of the river.**

Illinois-Missouri

Officers of Illinois and Missouri will recognize and accept valid sport fishing licenses of either state when legally possessed and used in the Mississippi River and its backwaters within the boundary of Missouri adjacent to the state of Illinois. **Persons licensed in only one state may also fish in the other state's portion of any oxbow lakes through which the Illinois-Missouri boundary passes, and may fish from or attach any device or equipment to land under the jurisdiction of the other state.** Persons licensed in only one state may not fish in tributaries of the Mississippi in the other state. Sport fishermen shall comply with the regulations of the state in whose waters they are fishing unless the regulations of their licensing state are more restrictive, then must comply with the more restrictive regulations. The center of the navigation channel is considered the boundary between Illinois and Missouri, except in situations where it is clearly shown to be elsewhere.

Illinois-Kentucky

Each state will recognize the sport fishing licenses and appropriate permits of the other state on the main stem and from the banks of the Ohio River, excluding embayments and tributaries where the Ohio River forms the state boundary. Embayments and tributaries shall be defined as a straight line between opposite points where the tributary or embayment connects with the main body of the Ohio River.

The fishing regulations adopted by the state issuing a sport fishing license apply to the licenses when fishing each state's respective waters, except that, all fishermen shall conform with the regulations of the state in which they are fishing, unless the regulations of the fishermen's licensing state are more restrictive, then the fishermen must conform with the more restrictive regulations. The regulations of the state where the sport fishing is occurring apply, if the licensee is fishing from the bank.

Wildlife law enforcement officials of either state shall have the right to inspect the licenses, harvest limits, creel limits, and equipment of any person on the Ohio River subject to the laws of either state.

Officers of Illinois and Kentucky will recognize and accept valid sport fishing licenses of either state when legally possessed and used on the main stem of the Ohio River, **excluding embayments and tributaries.**

Illinois-Indiana

Officers of Illinois and Indiana will recognize and accept valid sport fishing licenses of either state when legally possessed and used on the Wabash River forming a common boundary between Illinois and Indiana. **Sport fishermen shall not fish on water beyond the natural and ordinary river banks of the state in which they are not licensed to fish. Sport fishermen shall not fish from land attached to or taxed by the state in which they are not licensed or fish in tributaries, bayous, or backwaters of the state. Sport fishermen must abide by the laws of the state in which they are fishing.**

I FISH ILLINOIS WEBSITE

www.ifishillinois.org is the one-stop, go-to website for all sport fishermen fishing in Illinois waters!

From fishing reports to lake profile summaries to IDNR press releases and opening notices, ifishillinois.org has everything you need for a successful day out fishing on Illinois many waterbodies, including:

- Fishing Reports
- Individual Lake Maps
- Information for over 250 lakes, streams and rivers in Illinois
- Fishing Regulations
- Angling Tips

- Illinois Sportfish Species Information
- Taking Kids Fishing
- Tournaments Application Information
- Locate your county biologist
- Tips for stocking your pond
- Angling awards and Fishing Records
- Catch-and-release guidelines
- Opening Day Notices
- IDNR Press Releases

Don't forget to follow us on Facebook and X (formerly Twitter) for all the latest information about Illinois angling!

VHS REGULATIONS

Viral Hemorrhagic Septicemia (VHS) is a disease of fish caused by a virus previously unidentified in the Midwest. While it does not affect humans, VHS can kill a substantial number of fish and has been spreading throughout the Great Lakes states.

Regulations have been implemented to slow the spread of this dangerous aquatic virus in Illinois. Sport fishing and boating are both very popular and important to the Illinois economy. The cooperation of anglers and boaters is essential in combating VHS.

The regulations being implemented by the Illinois Department of Natural Resources (IDNR) regarding VHS that affect recreational sport fishermen and boaters include:

- Eliminating natural water from all equipment when leaving a body of water.
- Emptying and draining all bait buckets, livewells, baitwells, bilges, etc. or any other compartment capable of holding natural waters when leaving a body of water.
- Live VHS-susceptible species (see below) must not be transported away from any waterbody. Anglers may harvest VHS-susceptible species but may not transport those fish live from the waters where caught.
- Use of wild-trapped or caught fishes from within the state as bait will be restricted to the waters where legally captured.

Fish Species Known to be Susceptible to VHS

Black Crappie	Burbot	Gizzard Shad	Shorthead Redhorse	Round Goby	Walleye
Bluegill	Channel Catfish	Hybrid (Tiger) Muskie	Northern Pike	Silver Redhorse	White Bass
Bluntnose Minnow	Chinook Salmon	Lake Whitefish	Pumpkinseed	Smallmouth Bass	White Perch
Brown Bullhead	Emerald Shiner	Largemouth Bass	Rainbow Trout	Spottail Shiner	Yellow Perch
Brown Trout	Freshwater Drum	Muskellunge	Rock Bass	Trout-Perch	

While VHS is not known to be a threat to human health, sport fishermen are still advised to wash their hands after handling fish and to cook thoroughly any fish they plan to eat. If handling dead fish or fish that appear to be diseased, protective gloves should be worn.

LEAD TACKLE ADVISORY

The tackle industry, recognizing a growing awareness and concern about lead in the environment, has begun to create steel, tin, bismuth, or plastic sinkers. Consider using non-lead tackle when you go fishing.

Here's what you can do to help:

- Ask local sporting good stores to stock non-lead fishing tackle.
- Spread the word by telling other sport fishermen about the problem.
- Dispose of old lead sinkers and jigs properly by locating a drop-off location.

MONOFILAMENT ADVISORY

Monofilament Can Kill *if not used or disposed of properly!*

The Illinois DNR would like to remind all sport fishermen that the improper use and disposal of fishing line (a.k.a. monofilament) can have a dramatic impact on our wildlife. In addition to being an eyesore along our waterways, many shore birds, migratory birds, waterfowl, and raptors have become entangled in monofilament and died.

HOW ANIMALS COME IN CONTACT WITH MONOFILAMENT

There are a variety of ways animals encounter monofilament. Shore birds and waterfowl have been entangled in the litter while wading or swimming. Raptors and fish-eating waterfowl have ingested hooks and monofilament from fish that broke the line. Some migratory birds have used it as nesting material.

Starvation is the most common demise for animals encountering monofilament. The line wraps around the neck or accumulates in the stomach, preventing the ingestion of food. It can also immobilize the animals by wrapping around the legs, or securing them to stationary objects.

HOW YOU CAN HELP

Help from all anglers is needed to reduce the amount of fishing line in the environment. By using common sense and respecting our waterways, we can all help to reduce the risk of wildlife related mortalities due to monofilament.

- Properly dispose of unused monofilament in trash containers.
- Use the appropriate test line for the desired fish and fishing technique.
- Replace monofilament yearly. Replacing your monofilament annually can reduce the chance of breaking the line.
- Take the initiative while enjoying Illinois' waters. Help keep Illinois' waterways clean by picking-up discarded monofilament and tackle along the shores. An ounce of prevention is worth a pound of cure.

AQUATIC NUISANCE SPECIES

Help Protect Your Fishing!

Many aquatic nuisance species (ANS), such as zebra mussels and Asian Carp, have invaded lakes and rivers in Illinois. These non-native species can negatively impact fishing and other types of water recreation.

FIGHT THE SPREAD OF AQUATIC INVADERS

REMOVE PLANTS, ANIMALS AND MUD FROM ALL EQUIPMENT.
DRAIN ALL WATER FROM YOUR BOAT AND GEAR.
DRY EVERYTHING THOROUGHLY WITH A TOWEL.

For More Information...

TRANSPORTZERO.ORG

On ANS: contact Illinois-Indiana Sea Grant at (217) 333-6444 or visit www.iiseagrant.org

On harvesting, cleaning, and cooking Asian Carp: <https://iiseagrant.org/new-iisg-publication-asian-Carp-cuisine/>

On recognizing and identifying Asian Carp: <https://iiseagrant.org/help-identify-invasive-species-with-iisgs-new-asian-carp-watch-card/>

On recognizing and identifying Hydrilla: <https://iiseagrant.org/species-spotlight-hydrilla/>

Effective January 1, 2013, the Illinois Boat Registration and Safety Act has been amended to prevent the spread of invasive aquatic plants and animals by boats, trailers and vehicles. It is now illegal to enter *OR* leave a waterbody with aquatic plants and animals attached to your boat or trailer. Travel on Illinois highways with aquatic plants or animals attached is also prohibited. Always **Remove, Drain, and Dry** to comply with the new law!

Bighead and Silver Carp Watch

Bighead and Silver Carp (Asian Carp) are invasive fish spreading within the Mississippi River and Great Lakes regions causing harm to humans, native fish and wildlife. Both species have low-set eyes and a large, upturned mouth, and may grow to be more than 60 lbs. and 4 ft.

Bighead Carp

Silver Carp

Juvenile Asian Carp may be difficult to distinguish from local baitfish species such as gizzard shad.

Bighead Carp

Gizzard Shad (native)

Silver Carp

You can help!

- **Report new sightings** – note exact location, take a photo, freeze specimen in a sealed plastic bag and call 1-877-STOP-ANS (1-877-786-7267).
- **Harvest bait only** from uninfested waters.
- **Dispose** of bait in the trash.
- **Know the rules** – release of live Asian Carp is prohibited in Illinois.
- **Harvest and eat** these tasty fish to help reduce their numbers.

Hydrilla WATCH

Hydrilla is a non-native plant invading and causing harm to waters in nearby states. It forms thick, submersed mats that hinder fishing and boating, and harm fish and wildlife. Hydrilla looks similar to native elodea, which is found in many Illinois lakes and rivers. However, Hydrilla has whorls of 4 or more spear-shaped^a leaves around the stem (native = 2-3), leaves with coarse teeth^a along the edges (native = no teeth), and bulb-like tubers^b in the soil (native = no tubers).

*Photo credits: Illustration - UF/IFAS
Photo - Robert Vidéki*

You can help!

Early detection of new populations of Hydrilla may limit the spread and allow for its removal. Report new sightings of this plant (include photos if possible) via email to DNR.ANS@illinois.gov.
