

Little Grassy Lake

Fisheries Fact Sheet

Little Grassy Lake is a deep, clear, 1000-acre impoundment located in the south portion of the Crab Orchard National Wildlife Refuge between Marion and Carbondale in Williamson County Illinois. The Little Grassy Lake fishery is cooperatively managed by the Illinois Department of Natural Resources and U.S. Fish and Wildlife Service. The lake is surrounded by forested land and has three boat ramps plus a marina.

Largemouth bass: The Little Grassy Lake largemouth bass population is generally well balanced, and contains fish ranging in size from fingerlings to trophies. In 2019, bass abundance was higher--83 were collected per hour of electrofishing (goal is 60/hour). Bass quality, as measured by length, was easily within the management plan goal range with 46% larger than 12 inches and 13% over 15 inches. As is often the case in clear, infertile lakes, bass body condition (measured by relative weight) remained at the lower range of the goal but the 2019 sample included bass over 7 pounds.

Bluegill: Little Grassy Lake bluegill abundance in spring 2019, as measured by catch-per-unit-effort, was substantially higher at 59 per hour. The proportion of these fish larger than 6 inches was 47%, bluegill larger than 7 inches made up 17% of the sample. Average bluegill body condition continues a slow decline just below the desirable range.

Redear: Little Grassy Lake redear abundance in the spring 2019 sample was lower at 34 per hour of electrofishing. Redear quality, based on length, however, continued to be very impressive, with 73% of fish over 7 inches, and 48% larger than 8 inches. 3% exceeded the 9 inch mark. Redear body condition dipped just below the lower end of the management plan goal range.

Regulations in effect: Largemouth bass – 12 to 15 inch protective slot limit, 6 per day creel. Channel catfish – 6 per day creel limit. No other size or creel limits are in effect. Outboard motor limit is 10 hp. Consult the Illinois Fishing Information booklet for additional regulation information.

Fees: A user permit is required to access the Crab Orchard National Wildlife Refuge, and a special use permit is required for competitive events. Information may be obtained by calling the refuge visitor center at 618-997-3344.

Additional Fisheries Information can be obtained by calling IDNR District Biologist Luke Nelson at 618-364-5381.
